Rockswold, E. John Hornsby, Margaret L. Lial, 1999 This book intended for a graphing required college algebra and trigonometry or precalculus course offers an innovative approach by demonstrating the importance of mathematics to students and presenting the material in an accessible manner The text consistently integrates mathematical concepts with real applications in order to enhance student intuition and understanding Symbolic algebraic graphical numerical and verbal skills are continually reinforced throughout When introducing mathematical ideas the text moves from the concrete to the abstract rather than the reverse It is the authors philosophy that learning is increased when students can relate a concept to something in their lives

Hence mathematical concepts are often introduced through applications that help make the mathematics real to students. Students see the importance of a topic from a practical and intuitive point of view with models and applications playing a central part in the learning process.

Precalculus Plus Ronald D. Ferguson, 1995

Teaching College Algebra Sherman N. Miller, 2005 Although inner city nontraditional students have native ability, Miller contends that they often lack the educational background to handle college level mathematics courses. In *Teaching College Algebra: Reversing the Effects of Social Promotion*, Miller provides a user friendly guide for teaching algebra, including trigonometry, finite mathematics, and statistics, to students who are the victims of school social promotion practices. *Teaching College Algebra* discusses how to present material to students who are inadequately prepared, ways to build self confidence, and advice for developing a new teaching style appropriate to the task of preparing nontraditional students for college level mathematics. In addition to including a complete discussion on the basic principles of algebra, the book provides helpful chapter summaries, course outlines, word problems, and timetables. It will be of great assistance to teachers, college professors, and parents.
