 communication which includes messages that are ambiguous indirect contradictory or evasive is highlighted as an important  
 phenomenon in this volume The authors show how equivocation can be measured with a scaling method that offers an  
 objective assessment of the amount and kind of equivocation that exist in a message and which can be used in a variety of  
 research programmes Several hundred experiments with a wide range of subjects from children to politicians support the  
 theory that equivocations occur only in situations where all direct messages would lead to negative consequences and that  
 communication is dependent more on situations than on individuals      The Beetle Book Louis William Steinwedel,1981
