Vladimirovich,2022-04-08 The study of the geometry of structures that arise in a variety of specific natural systems such as
chemical physical biological and geological revealed the existence of a wide range of types of polytopes of the highest
dimension that were unknown in classical geometry At the same time new properties of polytopes were discovered as well as
the geometric patterns to which they obey There is a need to classify these types of polytopes of the highest dimension by
listing their properties and formulating the laws to which they obey The Classes of Higher Dimensional Polytopes in Chemical
Physical and Biological Systems explains the meaning of higher dimensions and systematically generalizes the results of
geometric research in various fields of knowledge This book is useful both for the fundamental development of geometry and
