His show *Dog Whisperer with Cesar Millan* which aired from 2004 to 2012 focused on the rehabilitation of aggressive or problematic dog behaviors. Chapters cover Millan's humble beginnings as a farmhand in Mexico, the development of his hit show, and the lessons he has learned about creating balance between the canine world and humane animal ownership.

How to Train Your Dog with Love + Science Annie Grossman, 2024-09-10 Finally! A dog training book that makes sense for both dogs and humans using positive reinforcement techniques based on animal behavioral science. For generations, celebrity trainers have preached that dog owners must dominate dogs and have criticized people for daring to treat pets with affection. *How To Train Your Dog with Love Science* presents a modern and science-based approach to dog training, showing how behavior can be changed without coercion and force. Annie Grossman, a journalist turned dog trainer, breaks down what positive reinforcement actually is and makes the case that good dog training may even be a window into understanding ourselves. Grossman offers building block exercises and tips on how to train effectively using the reward-based methods she's honed over the last decade with clients at her Manhattan training center, *School For The Dogs*. Whether you've just brought a new dog into your home or you're wanting to teach an old one new tricks, *How to Train Your Dog with Love Science* will help you consider what behaviors you want and help you to achieve your goals using techniques rooted in the science of behavior. Woven into this lively history is the century-long history of positive reinforcement training, from Pavlov's dogs and Skinner's rats to today's apartment-dwelling dogs using Wi-Fi-enabled devices. By employing the easy-to-understand techniques laid out in this book, you will be able to train your dog to live confidently, comfortably, and happily in your world.

Theofatalism Lewis Tagliaferre, 2013-06-10 When your world of traditional assumptions is shaken where do you turn for inner peace and personal comfort Considering Pascal's wager if there is no god and we disbelieve we have lost nothing but if there is a god and we disbelieve we may have lost everything But what if there is no free will and we all must believe whatever we are given That is the primary question that pushed this author into investigating what the world religions and philosophies taught about the existential puzzle called life When my traditional faith failed to provide any comfort after untimely death of my wife I began searching for some belief I could live with and this is what I was given Many thinking people have rejected the mythical god of the Bible and the Quran but they have not found a suitable substitute Since there is no proof for or against the existence of God everyone must be agnostic or atheist if they will admit it Perhaps it is time to replace the anthropomorphic god with one that really works Not the god of the Bible or the Quran but the prime force in the universe Generator Operator Destroyer G O D The expanded and updated essays in the second edition of this book develop such a new theology

The Ethical Dog Trainer Jim Barry, 2008-06 Dog trainers face ethical decisions all the time Do I keep working with a client when it is obvious that the owner will not keep up the training program to the detriment of the dog Should I accept payments from other dog professionals to whom I refer clients What is the proper way to interact with other dog trainers who use methods I disagree with Author Jim Barry dives deep into the ethical questions frequently faced by dog trainers and offers up a systematic approach to helping trainers resolve difficult dilemmas Click here to view an excerpt
