**Harnessing the Potential of Functional Foods Containing Bioactive Compounds: Implications for Health and Sustainability** Ali Rashidinejad, Muhammad Ijaz Ahmad, 2026-03-10 Functional foods containing bioactive compounds have emerged as a subject of immense interest due to their potential in promoting health and mitigating chronic diseases. However, despite the growing popularity, there exists a critical need to comprehensively understand their mechanisms of action, assess their impact on human health across various demographics, and optimize their production and consumption within sustainable food systems. This Research Topic seeks to bridge these knowledge gaps and provide a holistic perspective on the role of functional foods in enhancing human health and sustainability. Functional foods containing bioactive compounds have garnered significant attention due to their potential to promote health and prevent chronic diseases. This Research Topic will provide a platform for researchers to discuss recent advancements, challenges, and opportunities in the field. Topics of interest may include but are not limited to: Identification and characterization of bioactive compounds in food sources; Sustainable production and processing of functional foods; Mechanisms of action underlying the health benefits of functional foods containing bioactive compounds; Effects of functional foods and bioactive compounds on metabolic health, immune function, and gut microbiota; Role of functional foods in the prevention and management of specific chronic diseases such as cardiovascular diseases, diabetes, and obesity; Consumer acceptance, behavior, and preferences regarding functional foods; Policy and regulatory aspects related to functional foods and bioactive compounds.

**Hands Off My Food! (Updated and Revised Edition)** Sina McCullough, 2026-02-24 Are you truly in control of what you eat? In *Hands Off My Food*, Dr. Sina McCullough exposes the hidden forces manipulating what ends up on your plate: from unelected bureaucrats making top-down decisions about your food to multinational biotech corporations pushing untested technologies into the food supply to regulatory frameworks that prioritize industry profits over public health. With clarity, urgency, and meticulously sourced research, this book reveals how the basic right to choose what we eat is being undermined, often without our knowledge or consent. Blending investigative reporting with a passionate defense of food sovereignty, *Hands Off My Food* traces how federal policies and global agreements have chipped away at transparency, safety, and local autonomy in agriculture and nutrition. It's a call to action for anyone who believes that individuals, not corporations or centralized authorities, should decide what's on the menu. If you care about clean food, honest labeling, and the freedom to make informed choices about what nourishes your body, this book is essential reading. Because when it comes to your food, the fight for control is already underway.

**Eat Your Ice Cream** Ezekiel J. Emanuel, 2026-01-06 From one of America's leading doctors, an authoritative, practical, and entertaining guide to living a full and healthy life. Everyone wants to live a full and healthy life, and every day brings a tidal wave of attention-grabbing misinformation, faddish ideas from wellness influencers, and bizarre advice from

news outlets over extrapolating the results of tiny outlier studies The Wellness Industrial Complex prescribes conflicting and complicated regimens while promising us more time to enjoy in the future though it sure is demanding a lot of time right now But what actually matters most to our health and longevity What has the most robust actionable evidence What s the junk you can skip In Eat Your Ice Cream renowned physician Ezekiel J Emanuel argues that life is not a competition to live the longest and that wellness shouldn t be difficult it should be an invisible part of one s lifestyle that yields maximum health benefits with the least work Dr Emanuel cuts through the noise with wit and good humor giving readers just what they need simple high impact evidence based guidelines on such issues as alcohol consumption food and nutrition exercise sleep mental acuity and social engagement Resisting the tide of the latest trends to extend life at all costs Eat Your Ice Cream reveals that many of the tools for a long healthy and meaningful life are already within reach Pairing common sense with uncommon wisdom based on his decades of expertise and experience Dr Emanuel helps us consider which lifestyle changes are worth making and how to most easily implement them for longer healthier and happier lives Readers will come away with greater clarity and a deeper understanding of what really matters for well being connection purpose and sustainable choices backed by rigorous science [Health Breakthroughs 2025](#) Bottom Line Books,1992 **Sustainable Food Innovation** Luca Serventi,2023-03-16 This text offers a holistic approach to the two topics of the highest interest in the current and future food industry sustainability and nutrition The current knowledge is narrow and specific to individual topics focusing on either one nutrient or one discipline Food is part of a wide circle of disciplines nutrition technology sensory environmental aspects psychology economy culture and society In the recent years the sales of innovative foods such as meatless burgers allergen free products and personalized nutrition have skyrocketed Sustainable Food Innovation presents the big picture on each nutrient industrial and natural sources ingredients food products consumer acceptability price sensory quality and nutritional properties quantity and quality with each chapter focusing on a specific essential nutrient Further chapters illustrate the role of other elements of interest such as bioactive In addition experimental data is added to enrich the book Online discussions on current food trends are analyzed and presented to the reader in the effort to understand consumers psychology This will be the first publication to combine literature review and research data and the first to offer a comprehensive discussion on sustainable food innovation The ultimate goal is to educate consumers and experts providing technical and socioeconomic knowledge in a multidisciplinary context Ultimately informed technologists will develop healthier sustainable food products and informed consumers will make informed decisions on nutrition and food choices **Scaling up inclusive innovations in agrifood chains in Asia and the Pacific** Gálvez, E.,2022-06-21 The publication looks at innovations happening at all stages of the food value chain from production to manufacturing and retailing This also includes the extended value chain for example input supply financial services and agribusiness support services Yields are improving and primary production is becoming more resilient as a result of digital technologies such as precision agriculture agricultural drones and digital

farming services and marketplaces and novel business models such as plant factories crowdsourcing for farmers Data and robotics help lift productivity and food safety in the manufacturing process Online grocery commerce and food delivery services are revolutionizing the way consumers purchase food Distributed ledger technology such as blockchain allows making payments and tracing back food products along the chain in order to increase transparency and trust New business models are springing up to shorten the chain by removing or shifting stages and to make it fairer and greener stimulated by enabling technologies and changing customer behaviours Innovations such as these are discussed and illustrated by almost 200 practical examples from 21 countries in the Asia Pacific region across various types of firms and commodities By observing emerging trends and providing concrete examples the book discusses the nature of these innovations how they are affecting food systems and value chains positively or negatively and how to deal with trade offs It concludes with a reflection on the impacts of these innovations the policy solutions identified and lessons learned to future proof the region s food systems particularly in the wake of the COVID 19 pandemic

Plastic Tides: Tackling Plastic Pollution for Global Food Security Adnan Abubakr, Monisa M. Malik, Adnan Amin, 2026-03-27 As plastics including microplastics increasingly infiltrate freshwater and marine ecosystems they pose serious risks to aquatic organisms particularly those that are part of the human food chain To address this crisis researchers and policymakers require a multidisciplinary exploration of both the origins of plastic pollution and the potential mitigation strategies including biodegradable alternatives circular economy approaches policy frameworks and community led efforts to reduce environmental impact Plastic Tides Tackling Plastic Pollution for Global Food Security will not only examine the sources of plastics in water bodies their accumulation in aquatic food species and the potential health and economic impacts on communities reliant on these resources but also explore practical solutions including plastic reduction strategies and sustainable material alternatives Special emphasis will be placed on regions and populations that are particularly dependent on fisheries and agriculture highlighting their heightened exposure and vulnerability Insights from across the fields of environmental science toxicology and public health together offer a comprehensive guide to tackling this influx of pollution on a scientific and public policy level
