The image shows a screenshot of an AI-powered writing assistant interface. The main text area contains a question and its answer:

**Q** What is the difference between a home's appraised and market value?

**A** Market value is the price that the average buyer is willing to pay for a property and is a subjective number. Appraised value refers to the objective value of a home assigned by a licensed appraiser. These numbers should be similar, but if not, you can contest. Appraised value is used as a measure of market for a second opinion.

Surrounding the text editor are several tone filter buttons, each with a corresponding emoji icon:
