# The Caribbean Islands

## If YOU lived there...

You are a young sailor on Christopher Columbus's second voyage to the New World. The year is 1493. Now that your ship is in the Caribbean Sea, you are sailing from island to island. You have seen volcanoes and waterfalls and fierce natives. Columbus has decided to establish a trading post on one of the islands. You are part of the crew who will stay there.

**What do you expect in your new home?**

**BUILDING BACKGROUND** In the late 1400s and early 1500s, European nations began to compete for colonies. Sailing for Spain, Christopher Columbus made four voyages to the Americas. He and his men discovered and explored many islands.

## History

When Christopher Columbus discovered America in 1492, he actually discovered the Caribbean islands. These islands now include 13 independent countries. The countries themselves show the influence of those first European explorers.

### Early History

Christopher Columbus first sailed into the Caribbean Sea from Spain in 1492. He thought he had reached the Indies, or the islands near India. Therefore, he called the Caribbean islands the West Indies and the people who lived there Indians.

Spain had little interest in the smaller Caribbean islands, but the English, French, Dutch, and Danish did. In the 1600s and 1700s, these countries established colonies on the islands. They built huge sugarcane plantations that required many workers. Most Caribbean Indians had died from disease, so Europeans brought Africans to work as slaves. Soon Africans and people of African descent outnumbered Europeans on many islands.
