"*Throw the book away*" Amie A. Doughty, 2013-05-11 Children's literature is an excellent way to educate children on everything from social behavior and beliefs to attitudes toward education itself. A major aspect of children's literature is the importance of books and reading. Books represent adult authority. This book examines the role that books, reading and writing play in children's fantasy fiction, from books that act as artifacts of power (The Abhorsen Trilogy, The Spiderwick Chronicles, Harry Potter) to interactive books (The Neverending Story, Malice Inkheart) to books with character writers (Percy Jackson, Captain Underpants). The author finds that although books and reading often play a prominent role in fantasy for children, the majority of young protagonists gain self-sufficiency not by reading but specifically by moving beyond books and reading.

A Journey Through Potions and Herbology Pottermore Publishing, 2019-06-27 This non-fiction short-form eBook features content which is adapted from the audiobook *Harry Potter: A History of Magic* inspired by the British Library exhibition of the same name. Potions have been made for thousands of years, associated with bubbling pots and mysterious ingredients; they have been brewed to make medicines, drugs, and poisons. Harry Potter became much better at Potions with a little help from the Half-Blood Prince. Plants have also been important components of medicines, as much as myth-making and magic. A source of danger as well as a means of overcoming obstacles, Herbology was a subject which had a major bearing on Harry's key decisions and mistakes in the wizarding world. This eBook short examines the colourful characters and curious incidents of the real history of magic and how they relate to the Hogwarts lesson subjects of Potions and Herbology. The history of magic is as long as time and as wide as the world. In every culture, in every age, in every place, and probably in every heart, there is magic.
