combination the book is truly interdisciplinary and appeals to multiple audiences At the same time it sustains a deep theoretical engagement with the central concepts of social and visual agency and the disruption of restrictive social norms In the end this study of the visual argues that the agency of images is located within and not only in opposition to cultural discourses such as gender class and exoticism

**Distancing Representations in Transgender Film** Lucy J. Miller,2023-02-01

Distancing Representations in Transgender Film explores the representation of transgender identity in several important cinema genres comedies horror films suspense thrillers and dramas In a critique that is both deeply personal and theoretically sophisticated Lucy J Miller examines how these representations are often narratively and visually constructed to prompt emotions of ridicule fear disgust and sympathy from a cisgender audience Created by and for cisgender people these films do not accurately represent transgender people s experiences and the emotions they inspire serve to distance cisgender audience members from the transgender people they encounter in their day to day lives By helping to increase the distance between cisgender and transgender people Miller argues these films make it more difficult for cisgender people to understand the experiences of transgender people and for transgender people to fully participate in public life The book concludes with suggestions for improving transgender representation in film
