3

This is the third edition of *Economic Principles* by Chris Bajada, UTS, adapted from the successful Jackson, McIver, Wilson *Macroeconomics 9e* and *Microeconomics 9e* textbooks. *Economic Principles* is designed for business students undertaking a one-semester economic principles course. This is a focused, highly integrated text with real-world features and contemporary examples.

FOCUS ON CORE MODELS

This one-semester, student-oriented textbook stresses the importance of the economic perspective through simplified explanations and the application of core economic models. The text has 13 main chapters covering macroeconomics and macroeconomics concepts, and 6 extension chapters that (where required) provides instructors additional flexibility to increase coverage and depth. These chapters offer an innovative solution for teaching more advanced students or a higher level course. A suggestion for sequencing topics to tailor to your subject is also provided.

UP-TO-DATE DISCUSSIONS AND EXAMPLES

Economic Principles 3e contains extensive revisions, including new pedagogical features such as worked examples for every core chapter, and contemporary examples of economic principles in relation to significant issues such as, global warming and carbon emissions. *Economic Principles* maintains its clear and balanced approach to the topic, aiming to assist students in applying the economic perspective and reasoning accurately and objectively about economic matters.

TECHNOLOGY

Now with even more online support! This edition offers through Connect Plus online resources such as: graphing tutorials, maths preparedness modules, interactive videos and case studies and related questions as well as student revision tools.
