The Chinese World Order John King Fairbank, 1974 **The Chinese World Order** John King Fairbank, 1968 **The Chinese World Order ; Traditional China's Foreign Relations. Edited by John King Fairbank. With Contributions by Ta-tuan Chen [and Others].** John King Fairbank, Ta-tuan Ch'en, 1968 **The Chinese World Order** John King Fairbank, 1974 *Histories of International Law in China*, 2026-02-20 *Histories of International Law in China* All Under Heaven offers a groundbreaking exploration of China's engagement with international law over the past two centuries. Written by an interdisciplinary group of international law scholars and legal historians it provides a longue dur e perspective revealing both enduring patterns and profound shifts in China's approach to the global legal order. Beginning with China's millennia old Sino-centric worldview rooted in the Confucian concept of Tianxia All under Heaven the book traces China's evolving relationship with international law from its period of isolation to its forced entry into the Western legal system during the First Opium War 1839 1842. It examines the transformation of China's legal landscape through the fall of the Qing Dynasty 1911 the Republican era 1912 1949 and the establishment of the People's Republic of China 1949. The book explores China's relationship with international law from 1949 including through the Cultural Revolution until the reform and opening up era and the end of the Cold War. *Histories of International Law in China* sheds light on often overlooked historical episodes and key conceptual legacies shaping China's approach to the international legal order. A unique feature is its curated biographies including multiple long forgotten or invisible protagonists such as pioneering women in the history and theory of international law and China. Engagingly written and meticulously researched this volume offers invaluable insights for legal scholars and researchers interested in understanding China's historical and contemporary role in shaping and making international law.

China and International Relations Zheng Yongnian, 2010-09-13 Focussing on one of the most influential scholars writing on international relations Wang Gungwu this book explores the limitations of Western international relations approaches to China and explains China's IR from a non-Western perspective and demonstrates how the study of Chinese experiences can enrich the IR field.

The United States, China, and the Competition for Control Melanie W. Sisson, 2024-11-22 This book considers whether the United States and the People's Republic of China have irreconcilable visions of world order. *The United States China and the Competition for Control* evaluates the twin claims that China seeks to dismantle the post World War II international order and that the United States seeks to defend it. It defines the post war order and examines how the United States and China have behaved within and in relation to it since 1945. An analysis of the two states rhetoric and policy reveals that their preferences for international order are not as divergent as today's conventional wisdom suggests. The book therefore concludes that U S policies that treat China as a threat to international order are misplaced and offers policy recommendations for how the United States can both preserve the post

war order and protect its vital national interests The book will be of interest to foreign policy practitioners commentators and analysts as well as students and scholars of security studies international relations and geopolitics Soft Power With Chinese Characteristics Ying Zhu, Kingsley Edney, Stanley Rosen, 2019-12-05 This book examines the Chinese Communist Party's attempts to improve China's image around the world thereby increasing its soft power This soft attractive form of power is crucial if China is to avoid provoking an international backlash against its growing military and economic might The volume focuses on the period since Xi Jinping came to power in 2012 and is global in scope examining the impact of Chinese policies from Hong Kong and Taiwan to Africa and South America The book explains debates over soft power within China and delves into case studies of important policy areas for China's global image campaign such as film news media and the Confucius Institutes The most comprehensive work of its kind the volume presents a picture of a Chinese leadership that has access to vast material resources and growing global influence but often struggles to convert these resources into genuine international affection With a foreword by Joseph Nye Soft Power With Chinese Characteristics will be invaluable to students and scholars of Chinese politics and Chinese media as well as international relations and world politics more generally
