Introduction to the Mystery of the Church Benoit-Dominique de La Soujeole, OP, 2014 Introduction to the Mystery of the Church is an ecclesiological survey presenting a doctrinal synthesis of the Church The author s intention is to propose an overview of this mystery in connection with the entirety of the Christian mystery The book is divided into two major parts the

first presenting the foundations in the Bible and the tradition up to our day and the second being an explanatory proposal introducing the reader to the Church's definition and personality and concluding with an exposition of the four properties enunciated in the Creed one holy catholic and apostolic The value of this way of proceeding is first and foremost in the proposal of a synthesis that allows one to situate each question in its rightful place such study being oriented toward a better overall grasp of the subject As the title suggests the book is an introduction that should allow the reader to apprehend the mystery in its internal coherence in order subsequently with the aid of other texts to be able to enter more deeply into the study of one or other specific point While this ecclesiology treatise is written from a Catholic point of view an ecumenical perspective is often present either through the presentation of divergent views from other Christian confessions or through the proposal for a theological convergence
