Body Theresa Earenfight,2012-02-24 Queen Mar a of Castile wife of Alfonso V the Magnanimous king of the Crown of Aragon governed Catalunya in the mid fifteenth century while her husband conquered and governed the kingdom of Naples For twenty six years she maintained a royal court and council separate from and roughly equivalent to those of Alfonso in Naples Such legitimately sanctioned political authority is remarkable given that she ruled not as queen in her own right but rather as Lieutenant General of Catalunya with powers equivalent to the king s Mar a does not fit conventional images of a queen as wife and mother indeed she had no children and so never served as queen regent for any royal heirs in their minorities or exercised a queen mother s privilege to act as diplomat when arranging the marriages of her children and grandchildren But she was clearly more than just a wife offering advice she embodied the king s personal authority and was second only to the king himself She was his alter ego the other royal body fully empowered to govern For a medieval queen this official form of corulership combining exalted royal status with official political appointment was rare and striking The King s Other Body is both a biography of Mar a and an analysis of her political partnership with Alfonso Mar a s long busy tenure as lieutenant prompts a reconsideration of long held notions of power statecraft personalities and institutions It is also a study of the institution of monarchy and a theoretical reconsideration of the operations of gender within it If the practice of monarchy is conventionally understood as strictly a man s job Mar a s reign presents a compelling argument for a more complex model one attentive to the dynamic relationship of queenship and kingship and the circumstances and theories that shaped the institution she inhabited La financiación exterior del capitalismo español en el siglo XIX María Teresa Costa,1983

Análisis histórico del sector agrario español en la Edad Moderna y la Edad Contemporánea Javier Ramos

Beltrán,2024-08-21 Este libro explora la evoluci n hist rica de la agricultura en Espa a y su impacto cultural nacional y econ mico Desde las revoluciones agrarias del siglo XV hasta la entrada en la Uni n Europea se destacan momentos clave como la construcci n del Canal Imperial de Arag n o las reformas agrarias del siglo XIX inspiradas en los proyectos de la Real Sociedad Econ mica de Amigos del Pa s Adem s se analiza la importancia de la colonizaci n rural durante el franquismo y el rol actual de Espa a como potencia agr cola Se concluye con propuestas para revitalizar el campo espa ol fomentando la inversi n en infraestructuras y el desarrollo rural *The National union catalog, 1968-1972* ,1973 *Historia Patria* Carolyn P. Boyd,2020-12-08 Beginning with the restoration of the Bourbon monarchy in 1875 and ending with the death of General Francisco Franco in 1975 this book explores the intersection of education and nationalism in Spain Based on a broad range of archival and published sources including parliamentary and ministerial records pedagogical treatises and journals

teachers manuals memoirs and a sample of over two hundred primary and secondary school textbooks the study examines ideological and political conflict among groups of elites seeking to shape popular understanding of national history and identity through the schools both public and private A burgeoning literature on European nationalisms has posited that educational systems in general and an instrumentalized version of national history in particular have contributed decisively to the articulation and transmission of nationalist ideologies The Spanish case reveals a different dynamic In Spain a chronically weak state a divided and largely undemocratic political class and an increasingly polarized social and political climate impeded the construction of an effective system of national education and the emergence of a consensus on the shape and meaning of the Spanish national past This in turn contributed to one of the most striking features of modern Spanish political and cultural life the absence of a strong sense of Spanish as opposed to local or regional identity Scholars with interests in modern European cultural politics processes of state consolidation nationalism and the history of education will find this book essential reading
