

The background of the cover is a photograph of a vast, snow-covered mountain range. A bright sun is positioned in the upper right corner, creating a starburst effect. In the foreground and middle ground, several people are seen climbing a steep, snow-covered slope. They are wearing heavy winter gear, including backpacks and helmets. The overall scene is one of a high-altitude, alpine environment.

Data Communications and Networking Behrouz A. Forouzan, 2012 The fifth edition of

Behrouz Forouzan's *Data Communications and Networking* presents a comprehensive and accessible approach to data communications and networking that has made this book a favorite with students and professionals alike. More than 830 figures and 150 tables accompany the text and provide a visual and intuitive opportunity for understanding the material. This unique approach minimizes the need for heavy math content, allowing normally complicated topics to unfold graphically and visually rather than through the presentation of complex formulas. The new edition has been reorganized to showcase recent developments in the field and minimize or eliminate coverage of deprecated topics. In addition to the updated material included in each chapter, the text now features a chapter on the peer-to-peer paradigm, a full chapter on quality of service (QoS), additional coverage of forward error correction, coverage of WiMAX, and material on socket interface programming in Java. The end-of-chapter material has also been significantly enhanced and now includes more than 630 questions, 600 problems, many lab assignments, programming assignments, and online applets that allow students to see problems and protocols in action. Technologies related to data communications and networking are among the fastest growing in our culture today, and there is no better guide to this rapidly expanding field than Behrouz Forouzan, an author whose visual, student-friendly approach has become a hallmark in a computer science instruction.

Data Communications and Networking with TCP/IP Protocol Suite Behrouz A. Forouzan, 2021-03. Revised edition of *Data Communications and Networking*. **Loose Leaf for Data Communications and Networking with TCP/IP Protocol Suite** Behrouz A. Forouzan, 2021-01-11. *Data Communications and Networking* 5th edition teaches the principles of networking using TCP/IP protocol suite. It employs a bottom-up approach where each layer in the TCP/IP protocol suite is built on the services provided by the layer below. This edition has undergone a major restructuring to reduce the number of chapters and focus on the organization of the TCP/IP protocol suite. It concludes with three chapters that explore multimedia network management and cryptography, network security. Technologies related to data communications and networking are among the fastest growing in our culture today, and there is no better guide to this rapidly expanding field than *Data Communications and Networking*.

Business Data Communications Behrouz A. Forouzan, 2003. Designed for use in a data communications course for business majors. This book blends a technical presentation of networking concepts with many business applications. Each chapter is mapped out with chapter objectives and an overview at the beginning. It uses Business Emphasis boxes to pull out important business applications.

Data Communication Principles Aftab Ahmad, 2003. *Data Communication Principles for Fixed and Wireless Networks* focuses on the physical and data link layers. Included are examples that apply to a diversified range of higher-level protocols such as TCP/IP, OSI, and packet-based wireless networks. Performance modeling is introduced for beginners requiring basic mathematics. Separate discussion has been included on wireless cellular networks performance and on the simulation of networks. Throughout the book, wireless LANs have been given the same level of treatment as fixed network protocols. It is assumed that readers would be familiar with basic mathematics and have some knowledge of binary.
