How Language Works David Crystal,2007-11-01 Steven Pinker meets Bill Bryson in this landmark exploration of language In the author s own words How Language Works is not about music cookery or sex But it is about how we talk about music cookery and sex or indeed anything at all Language is so fundamental to everyday life that we take it for granted But as David Crystal makes clear in this work of unprecedented scope language is an extremely powerful tool that defines the human species Crystal offers general readers a personal tour of the intricate workings of language He moves effortlessly from big subjects like the origins of languages how children learn to speak and how conversation works to subtle but revealing points such as how email differs from both speech and writing in important ways how language reveals a person s social status and how we decide whether a word is rude or polite Broad and deep but with a light and witty touch How Language Works is the ultimate layman s guide to how we communicate with one another **How to Talk Language**

Fostering Culture Through Film Elda Buonanno Foley, Patrizia Comello Perry, 2016-05-11 The perceived lack of understanding of cultural diversity in the American learning community has led instructors to challenge assumptions and stereotypes while addressing misconceptions Teachers of foreign languages and cultural studies in particular feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty first century The common starting point resides in the paradox that exists in today s connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify interpret and compare the different cultural models that learners encounter The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities communities that form the basis of global culture This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities similarities and problems in the second language curricula methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values This work will encourage a dialogue and long lasting conversation on methodologies and teaching strategies rethought reapplied and remolded to the new learning environments
