Dear Life Alice Munro Pdf:

Ethics and Affects in the Fiction of Alice Munro Amelia DeFalco, Lorraine York, 2018-09-03 Ethics and Affects in the Fiction of Alice Munro explores the representation of embodied ethics and affects in Alice Munro's writing. The collection illustrates how Munro's short stories powerfully intersect with important theoretical trends in literary studies including affect studies, ethical criticism, age studies, disability studies, animal studies, and posthumanism. These essays offer us an Alice Munro who is not the kindly Canadian icon reinforcing small town verities who was celebrated and perpetuated in acts of national pedagogy with her Nobel Prize win; they ponder instead an edgier messier Munro whose fictions of affective and ethical perplexities disturb rather than comfort. In Munro's fiction unruly embodiments and affects interfere with normative identity and humanist conventions of the human based on reason and rationality, destabilizing prevailing gender and sexual politics, ethical responsibilities, and affective economies. As these essays make clear, Munro's fiction reminds us of the consequences of everyday affects and the extraordinary ordinariness of the ethical encounters we engage again and again.

Reading Alice Munro's Breakthrough Books J.R. (Tim) Struthers, Ailsa Cox, Corinne Bigot, Catherine Sheldrick Ross, What in terms of Alice Munro's creative artistry and creative power allowed her to become the first and only short story writer, the first and only Canadian, and just the thirteenth woman in history to win the Nobel Prize in Literature? And exactly when during Munro's career did her artistry and power advance to ensure that she would earn such world-wide renown? The answers lie in studying the boldly innovative yet greatly under-examined group of her four mid-career breakthrough books. Our volume therefore provides a carefully orchestrated analysis of Munro's subtle yet potent handling of form, technique, and style both within individual stories and across these special collections: *Reading Alice Munro's Breakthrough Books: A Suite in Four Voices* not only addresses a significant vacancy in Munro criticism and by extension in all short story criticism but equally importantly offers an exciting new model for how criticism can be collectively written.

More Time Lee Clark Mitchell, 2019-02-18 *More Time* studies the contemporary short story and focuses on four recent collections: Alice Munro's *Dear Life* (2012), Andre Dubus's *Dancing After Hours* (1996), Joy Williams's *The Visiting Privilege* (2015), and Lydia Davis's *Can't and Won't* (2014). Each publication has appeared near the conclusion of a career devoted all but exclusively to short stories, with each defining a late style honed over a lifetime. As well, each diverges from others in ways that have profoundly shaped our generic conceptions, and collectively they represent the four most innovative practitioners of the past half century, with the arguable exception of Raymond Carver. Yet in an era when writing programs, *The New Yorker*, and distinguished journals all promulgate the short story, it remains relatively under-examined as a major literary form. We continue to argue about what a story inherently is, ignoring how differences among practitioners enliven the field. Dubus, Munro, Williams, and Davis each defy critical efforts to identify the story form's presumed constitution, marked by a supposedly special shape or requisite length or distinct narrative trajectory. And the very contrast among their efforts reveals the expansiveness of the genre, though few have taken such a
