

Public Sector Economics Test Questions

Randall Holcombe

Fall 2014

1. Governments should act to further the public interest. This statement would probably receive general agreement, but it is not always clear exactly what determines when something is in the public interest. Discuss various measures of the public interest, including utilitarianism, the Pareto criteria, potential compensation, and the social welfare function. Explain each concept and the advantages and disadvantages of each.
2. What is the Coase theorem? Under what conditions will the Coase theorem's conclusions hold. Be sure to explain the importance of the distinction between small groups and large groups in the application of the theorem. What did Coase mean when he referred to the reciprocal nature of the problem with regard to his theorem?
3. What is the median voter model? Explain three ways in which the conclusion of the model can be reached. Use graphs to assist your explanation. What condition must be satisfied in order for the median voter model's outcome to be economically efficient?
4. What is the free rider problem? What is the prisoners' dilemma game? Explain the relationship between the free rider problem and the prisoners' dilemma game. What solutions are possible to the free rider problem, both inside and outside of government?
5. What is the Ricardian equivalence theorem? Explain the arguments supporting and opposing the theorem. In your explanation, be sure to make clear who bears the burden of the debt according to both sides, and the implications (e.g., regarding interest rates, investment, etc.) of both sides of the equivalence theorem argument. Use graphs to help explain how each side views the burden of the debt.
6. Explain Niskanen's theory of bureaucracy. Include in your discussion the incentives facing bureaucrats and compare the characteristics of bureaucratic output to output in the private sector.
7. Presently the social security tax is shared evenly between employers and employees. Explain, using graphs, what difference it would make if the entire tax were paid by employees as compared to the case where the entire tax is paid by employers. Be sure that your answer clearly compares all of the results of the two cases.
8. Compare the effects of placing a per unit tax on the demanders in a market as compared to placing a tax of the same magnitude on suppliers. Carefully compare who bears the burden of the tax in each case, using graphs to illustrate the comparison. In general, how can one determine what proportion of the burden of a tax will be borne by demanders and what proportion will be borne by suppliers?
9. What is a value added tax? Explain how the amount a taxpayer owes is calculated under a value added tax. Compare a value added tax to a sales tax. Be sure that your comparison includes both the burden of the tax in each case and the administrative aspects of each tax.
10. Compare the Haig-Simons definition of income to the Fisher definition. Give an example that illustrates the difference between the two definitions and explain how much income in your example would be taxable under each of the definitions.
11. Congressional decision-making tends to resemble a distributive game in that each member of congress tries to get special interest programs passed rather than those in the general public interest. a) Explain why this is so. b) Show how this type of situation could lead to a cyclical majority, using a numerical example if possible. c) Explain why such cycles are rarely observed in the real world. d) Explain how this situation could lead to a unanimous coalition in which each

Public Finance Test Questions Randall G Holcombe:

Public Finance and the Political Process Randall G. Holcombe, 1983 Holcombe presents theoretical models melds theory and empirical work and juxtaposes economics and political science Further he provides insights into such concepts as agenda control points out the advantages of incumbency explains government as a natural monopoly establishes an updating of the social contract and examines the virtues of common law in contrast to statutory law In his final chapters Holcombe provides a foundation upon which the preceding chapters are logically built From his analysis it appears that there is an approximate correspondence between voter preferences and political outcomes as depicted by a median voter model but that for many reasons resource allocation through the public sector is considerably less efficient than through the private sector

Index of Economic Articles in Journals and Collective Volumes, 1987 **Public Policy and the Quality of Life** Randall G. Holcombe, 1995-01-24 This volume shows how the virtues of the market system private property and freedom of exchange can be applied to enhance the quality of life While there is widespread agreement that the market system works well to produce goods and services there is less agreement on quality of life issues and public opinion often favors government action to improve the quality of life Thus although people recognize in the abstract that markets work better than government in allocating resources the government's presence in the economy is continually growing as the government intervenes to deal with one problem after another This book shows how the market mechanism that has enhanced material well being is also better suited than government planning to improving the quality of life The book first examines the general principles that guide both market and government allocation of resources to show why market mechanisms work better than government planning to enhance the quality of life Then specific policy issues are examined to provide examples of how market forces can be harnessed to improve the quality of life Some of those issues are environmental protection health care the regulation of product quality and land use planning United States Political Science Documents, 1982 **Southern Economic Journal**, 1981 Contains section Book reviews Southern Economic Journal Cumulative Index, 1981 The American, 1881 **Comprehensive Dissertation Index: Business & economics, L-Z**, 1984 **Manufacturers' Record**, 1913 Public Finance Jonathan Gruber, 2004-08-01 **Public Finance Exams, Puzzles and Problems** Edward Tower, 1985 Instructor's Manual and Test Bank for Public Finance David N.
