JAVA Interview Questions and Answers:

Can a constructor be made final?

No, this is not possible.

static members belong to a class, but the constructor is needed to create an object. An abstract class is a partially implemented class, which contains abstract methods to be implemented in child class. final restricts modification: variables become constant, methods can't be overridden, and classes can't be inherited.

No, constructors are similar to methods, but cannot be invoked directly by a method call. They are used to initialize new class instances. Like methods, they may be overloaded

What is the APK format?

The Android packaging key is compressed with classes,UI"s, supportive assets and manifest.All files are compressed to a single file is called APK.

APK stands for android Application Package File(APK), it is zip file formatted packages based on the android application code.

Android application package (APK) is the package file format used by the Android operating system for distribution and installation of mobile apps and middleware. APK files are analogous to other software packages such as APPX in Microsoft Windows or Deb packages in Debian-based operating systems like Ubuntu.

What do you know about Java?

Java is a high-level programming language originally developed by Sun Microsystems and released in 1995. Java runs on a variety of platforms, such as Windows, Mac OS, and the various versions of UNIX.

Some of the advantages of the Java:

- The code is compiled into bytecode, it is like code once and run anywhere. It eliminates the need for platform-specific versions.
- Unlike other languages, the code is very robust.
- Object-oriented language.
- The applets runs faster
- Compared to C++, Java is easy to learn.

Java is an portable language which supports object oriented features like inheritance,polymorphism and encapsulation and it is platform independent once compile and run any where with the help of JVM.IN JVM we have native stack which is used to store non java code and it helps the programer to covert it to java code.
