

Math 1010 1C Study Guide Notes:  
Chloe Campbell- Section 400

Sets:

- a collection of objects
- Called the members or elements of the set
- **Notation:** {member1, member2, member3...} (...means the pattern continues)
- member /element order is irrelevant
- Set notation if there is an empty set ( $\{\}$ ) = zero crossed out

Venn Diagram:

- A way of visually describing relationships between sets with circles
- Each set=one circle

Ways in which a venn diagram can be:

1. All members of A are members of B= A is a **subset** of B
2. A and B have no members in common= A is **disjoint** from B
3. A and B are **overlapping**=they share some of the same members

How to decipher a Venn diagram:

- When there are numbers in the venn diagram, the numbers in each circle do not include the number in the overlapping region ( athletes not under 30 are 22 and athletes under 30 are 15), they are two separate entities.
- Any numbers outside all circles in the venn diagram mean that is how many are not members of either set (there were 28 people at the party that were athletes or under 30)

Two Way Tables:

- Table that summarizes data categorized into rows and columns
- Depending on the rows and columns, it tells you which numbers are disjoint and which ones overlap

Categorical Proposition:

- A grammatically complete sentence that claims a particular relationship between two

1. **Universal Affirmative**
  - All S are P
2. **Universal Negative**
  - No S are P
3. **Particular Affirmative**
  - Some S are P
4. **Particular Negative**
  - Some S are not P
