

DOCUMENT CONTROL SOP FOR MACHINES

SOP. NO	WRITTEN BY	DATE:
10	Carrie Anne Richardson	August 21, 2029

PURPOSE:	The purpose of this SOP is to establish a consistent and controlled method for documenting changes made to machines.
SCOPE:	This SOP applies to all machines in the facility.
RESPONSIBILITY:	The person responsible for this SOP is the Quality Manager.
PROCEDURE:	<ol style="list-style-type: none"> 1. When a change is made to a machine, the machine's documentation (schematic, drawing, PLC program, etc.) must be updated to reflect any revisions and changes. 2. The person responsible for making the change must update the documentation and submit the summary to the Quality Manager for review and approval. 3. The Quality Manager will review the documentation and, if necessary, make changes. Once the documentation has been approved, it will be filed in the machine's file. 4. Any changes made to the machine without prior approval from the Quality Manager may result in disciplinary action.

Division of Statistics, 1918 **Law and the Arms Trade** Laurence Lustgarten, 2020-09-03 This ground breaking book offers an extensive legal analysis grounded in public EU and international law of arms trade regulation integrated with insights drawn from international relations The sale of weapons and related technologies is globally one of the most politically controversial and ethically contentious forms of commerce Intimately connected with sustaining repressive governments and violations of international human rights and humanitarian law arms exports are also a central element in the economic and strategic policies of the governments of all large industrial states

They have also been the source of abundant corruption and of serious challenges to the norms and effectiveness of constitutional accountability in democratic states. On paper, the arms trade is heavily regulated; national legislation and international treaties are in place which purport to prohibit certain transactions and limit others. Yet despite its importance, legal and international relations scholarship on the subject has been surprisingly limited. This book fills this gap in the literature by examining and comparing the export control regimes of eight leading nations: USA, Russia, the UK, France, Germany, Sweden, China, and India, with chapters contributed by leading experts in the field of law and international relations.

This Resource Guide encompasses background information, description of effects on short and long term airport development, impacts on safety and performance measures, and other critical factors affecting future airport operations. In addition to providing guidance to users on available resources for additional assistance, this volume also includes lessons learned and best practices based on findings from case studies that examined the airport operator's role in PBN implementation. The Next Generation Air Transportation System NextGen refers to the federal programs predominately airspace, air traffic, or avionics related that are designed to modernize the National Airspace System. NAS ACRP's NextGen initiative aims to inform airport operators about some of these programs and how the enabling practices, data, and technologies resulting from them will affect airports and change how they operate.
