Violencia de género en la UPN. Estrategias de acompañamiento entre pares Margarita Elena Tapia Fonllem, Mónica García Contreras, 2024-02-07 En México prevalecen las violencias de género las cuales se han ejercido de forma deliberada en nuestra cultura heteropatriarcal Muestras de ello se encuentran en prácticamente cualquier rubro de nuestro sistema estructural y cultural Las Instituciones de educación superior no son la excepción pues a pesar de ser espacios en los que se supone priman valores que deberían contribuir al bienestar de todas las personas y a pesar de que tienen la responsabilidad social y la obligación normativa de contar con ambientes equitativos que favorezcan la igualdad de oportunidades académicas laborales y profesionales entre los sexos esto no sucede Los escritos aquí reunidos analizan diferentes aspectos de la violencia de género que se da en la Universidad Pedagógica Nacional Se sustentan en las indagaciones y reflexiones académicas feministas de la misma así como en lo identificado en las voces estudiantiles que

participaron en un proyecto llevado a cabo en dicha institución denominado Estrategias de acompañamiento entre pares en casos de violencia de género que tuvo entre sus objetivos principales la elaboración de un diagnóstico sobre posibles estrategias de acompañamiento de pares en materia de violencia de género en la Universidad la creación de un plan general para el acompañamiento de pares como estrategia pedagógica contra dicha problemática y la promoción de la autonomía entre el sector estudiantil
