

Overview of the Written Examination For Prospective Court Interpreters

This overview is adapted from an original text prepared by the Consortium for Language Access in the Courts (formerly Consortium for State Court Interpreter Certification). The written test is a product of the Consortium and New Jersey administers the written test in a manner consistent with the Consortium's guidelines. It is intended to help guide candidates to a successful testing experience.

Candidates are strongly urged to read this entire document carefully and complete the application at the end of this document.

Introduction

This document has been prepared to help persons aspiring to become approved court interpreters understand what the written exam measures, how it is administered, and how to prepare for taking the exam. Each examinee should study this overview thoroughly in order to be more fully prepared for the written exam.

Effective January 1, 2008, the written examination is the first step of the process for becoming an approved or registered court interpreter in New Jersey. **Passing this test does not mean a person has become an approved or registered court interpreter; rather, it means the examinee has met one of several requirements for approval or registration.**

The written exam measures a candidate's knowledge of three areas central to the work of a court interpreter at the level of a minimally qualified court interpreter:

1. *English Vocabulary*

To function as a professional court interpreter, one indispensable component is a high degree of proficiency in the English language. Accordingly, the written examination tests comprehension of written English vocabulary and idioms.

2. *Court-Related Terms and Usage*

A second area of knowledge essential to successful professional performance, is familiarity with the terminology and procedures of the court system. Accordingly, the written examination also measures recognition of common court-related situations and vocabulary, especially in the area of criminal courts.

3. *Ethics and Professional Conduct*

The last area of knowledge required of professional court interpreters covered in the written test is general knowledge of standards guiding the performance of duties. Accordingly, the written exam includes questions aimed at measuring a candidate's knowledge of ethical behavior and professional conduct.

What does the test look like?

The examination contains 135 multiple-choice questions. Each question has four choices, labeled A, B, C and D. The candidate is instructed to select the best choice and mark that choice on the answer sheet. The test has two parts:

Part I: General Language Proficiency, and

Part II: Court-Related Terms & Usage, and Ethics & Professional Conduct.

Each part has several sections, each containing a particular category of questions. Each section contains specific instructions on how to proceed. A complete list of the sections, including sample questions for each, is provided in Appendix A.
