

Module No.2

ELEMENTS OF CHILDREN AND ADOLESCENT LITERATURE

MODULE OVERVIEW

When adults are trying to give books to children to read, there are a lot of things that we should first ask. What makes a good children's book? Who will read it? Why are they going to read it? What purpose will it serve? All these questions are very essential considerations in analyzing or finding a good book for children.

This module will present a vocabulary with which we can discuss literature and offers some suggestions for appreciating and judging it.

LEARNING OBJECTIVES

After carefully studying and completing this module, you should be able to:

- Enumerate and explain the various elements of literature.
- Manifest sensitivity in finding and analyzing appropriate books for children.
- Adopt cultural awareness in evaluating multicultural literature.
- Evaluate literary works using different elements in evaluating literature.
- Observe some do's and doesn't in evaluating literature.

LEARNING CONTENTS

Reading Interests of Children

**(This part is based on Parayno,S.M. Children's Literature.. Unit 1-Lesson 2. Children's Reading Interests.*

One of the essential factors in the development in the various phases of growth is to find children materials that suits in the needs and interests of a child. According to Parayno (n.d), **a good literature brings the child into contact with great minds and various forms of experiences, increasing his knowledge of human nature and of the expanding world around him.**

In order to achieve these desirable changes in the child through literature , it is **necessary to know each child-- his interests, capacities, needs, and aspirations.** Once the child cannot read alone one literary text, it is the responsibility of the adult (parents, teachers, librarians) to help the children find the right books and provide activities that are related to his interests and needs.

Remember that the six years of elementary of a child is the crucial stage which adult, teachers or even librarians need to develop. This is the time when a child need to develop his reading habits that will prevail until his adult life. When choosing a good book for children to read, first things first to know are the two ideas; **the development of reading and the encouragement of reading pleasures.**

Before jumping into the literary text applicable for children, let's take a look at these terms (Parayno, n.d).
