

A detailed photograph of an industrial process control system. The central component is a large, cylindrical stainless steel tank mounted on four vertical legs. The tank is surrounded by a complex network of pipes, valves, and electrical conduits. A prominent feature is a large, horizontal pipe with a black arrow pointing to the left, located at the top of the frame. To the right of the tank, there is a vertical support structure with various sensors and control valves. In the foreground, a horizontal metal beam is visible, likely part of a conveyor or transport system. The entire setup is housed in a clean, industrial environment with a light-colored wall.
