International Conference on Digital

Libraries (ICDL) 2013 Shantanu Ganguly, P. K. Bhattacharya, 2013-11-29 ICDL conferences are recognized as one of the most important platforms in the world where noted experts share their experiences. Many DL experts have contributed thought-provoking papers in ICDL 2013. These important papers are reviewed and conceptualized into ICDL on different areas of DL proceedings. The Proceedings have two volumes and has over 1100 pages. *The Role of Science Popularization in Science, Technology & Innovation Policy* Akram Ghadimi, Hasan Jawaid Khan, 2021-01-06 Popularisation of Science Technology and Innovation STI is a process of communicating and appropriating scientific and technological knowledge among broad sectors of the population. This process however must contribute to an effective integration of a number of historical cultural political social and economic situations and make such knowledge a central component of the culture of social awareness and collective intelligence. The possibilities of gaining access to information are changing our vision while transforming the relationship between human beings and the appropriation and dissemination of knowledge. Today access to STI related knowledge is synonymous with development well being and improving quality of life. In this context STI is also making scientific and technological knowledge available to the ordinary citizen. This book includes 14 papers contributed by researchers scientists experts and professionals from 9 different developing countries namely Bhutan Cuba India Iran Mauritius Nigeria Sri Lanka Togo and Zimbabwe. And each paper gives significant insight into various policies and strategies that are being adopted or need to be adopted by the developing countries to ensure effective communication and popularisation of scientific knowledge. *Indological Research Papers* Vasudev Vishnu Mirashi, 1982 **Essays on Social Development & Welfare in Sri Lanka** Donald Chandraratne, 2002 Contributed articles on social work education social problems and community development in Sri Lanka **Teacher Well-Being in English Language Teaching** Luis Javier Pentón Herrera, Gilda Martínez-Alba, Ethan Trinh, 2022-11-11 This edited volume brings the important topic of teacher well being to the fore presenting a range of high quality and cutting edge contributions that illuminate and educate readers on the challenges and criticality of achieving teacher well being in English language teaching (ELT). Taking Sarah Mercer's call for action to make teacher well being a priority in the ELT field and adopting an ecological perspective reflective of the stance that teacher well being is a societal duty and not a personal responsibility the contributors present theoretically and methodologically innovative research studies from all around the world. The term teacher is used to refer to those who deliver English instruction in a variety of formal and informal educational settings and at different levels including K-12 schools adult education higher education teacher education programs and in community organizations. Chapters offer clear implications for research and practice and explore effective practices and interventions that can contribute to the improvement of teacher well being overall. Addressing a profession which is not only characterized as being filled with high levels of stress but delving into specific challenges around ELT in particular the authors crucially speak to themes around the additional emotional investment and labor which come with being an English language teacher. As such it will appeal to

academics and researchers in the field of English language teaching including scholar practitioners and teacher educators
