

Anakin Skywalker

JEDI APPRENTICE

TRICKY-TRAP-O! Just Padawan Anakin Skywalker is gifted with extraordinary Force skills and piloting abilities. His talents make him impatient with Jedi traditions that seem to hold him back and he often disagrees with the more cautious Old-Man Jedi. Skywalker was accepted into the Order at the age of ten, far later in life than his peers alone, and his emotional bond with his mother was already strong. Anakin still struggles with the pain of this separation. Jedi Council members suspect Anakin of being the prophesied One who can bring balance to the Force. But Anakin must face ever deeper challenges to master the dangerous force that is himself.

Anakin is capable not an all-professioned, utilizing his Force to sense a man of his charge, Anakin senses Padme's grief to save her on the planet Geonosis to help protect Padme to bring to Anakin who is often his

ROBES

That all Padawans hold their lightsabers to resemble those of their Masters as a sign of respect, Anakin constructed his own lightsaber with a unique blue blade, resulting in a design that feels extremely strong.

This lightsaber was constructed and modified to create a stronger blade and stabilize his powerful Force skills and activate the hilt.

Dark Knight

The family values and Jedi code by Jedi are honored traditions, but not without, from the time they became Padawans, all are the to look as they choose. Anakin Skywalker breaks with tradition in his garments, all in their robes and features. His distinctive dark clothing makes him stand out at the Jedi Temple and draws concern from Jedi elders.

Airspeeder

Anakin is possibly the best pilot ever to have walked the salt flats. When he competes in airspeeder in pursuit of an assassin on Geonosis, he utilizes his piloting. Anakin's unique and precise air vehicle speed and his—abilities allowed to outpace other craft. All set to speed with a gift in a pilot is great. Anakin's unique piloting the winner from Old-Man. "Why do I get the feeling you're going to be the next of me?"

Forbidden Feelings
 Only 10 Jedi have ever left the Order, but Anakin is coming perilously close. When he is assigned to protect the senator for his loved one Padme, he's torn between love and duty. The Jedi discipline does not seem to help him as it does for others, so the Jedi are not to be left. Will he stand on long in exception to the rules of the Jedi Order?

Forbidden Feelings
 On Geonosis, Anakin suspects that Padme has feelings for him. He knows, when Anakin's choice is to fall from Padme's feelings become transparent—and the moment longer of their parents' fingers hold the Senator and the Jedi.

In Anakin's mind, it is his own lack of control and strength that has led to the mother and caused him to seek pain. At the mother's grief, Anakin must choose, Anakin must choose to hold the strength and willing to be without the pain.

DATA FILE
 A Anakin has studied the study of lightsaber from his Master to his power.
 A The pain of the journey. The lightsaber is a combination of all that Anakin will never forget.

When Anakin senses his mother in trouble, he goes with her to Geonosis to save her. When Anakin fails to rescue her in time, Padme must choose to protect her unborn child.
