

Self-Reflection - A Response to the Study Guide

Question 1 Answer

1. Which of the following best describes the relationship between the two variables?

- a. There is a strong positive correlation between the two variables.
- b. There is a strong negative correlation between the two variables.
- c. There is a weak positive correlation between the two variables.
- d. There is a weak negative correlation between the two variables.
- e. There is no correlation between the two variables.

Correct Answer: b

The relationship between the two variables is a strong negative correlation. This is indicated by the fact that as the value of the first variable increases, the value of the second variable decreases.

Incorrect Answer: a. This is incorrect because the relationship is negative, not positive.

Correct Answer: b

2. Which of the following best describes the relationship between the two variables?

- a. There is a strong positive correlation between the two variables.
- b. There is a strong negative correlation between the two variables.
- c. There is a weak positive correlation between the two variables.
- d. There is a weak negative correlation between the two variables.
- e. There is no correlation between the two variables.

Correct Answer: a

The relationship between the two variables is a strong positive correlation. This is indicated by the fact that as the value of the first variable increases, the value of the second variable also increases.

Correct Answer: a
