Theories on Identity and the Body in Contemporary Art Emily Starr, 2009

Binding the Absent Body in Medieval and Modern Art Emily Kelley, 2017-07-05 This collection of essays considers artistic works that deal with the body without a visual representation It explores a range of ways to represent this absence of the figure from abject elements such as bodily fluids and waste to surrogate forms including reliquaries manuscripts and cloth The collection focuses on two eras medieval and modern when images referencing the absent body have been far more prolific in the history of art In medieval times works of art became direct references to the absent corporal essence of a divine being like Christ or were used as devotional aids By contrast in the modern era artists often reject depictions of the physical body in order to distance themselves from the history of the idealized human form Through these essays it becomes apparent even

when the body is not visible in a work of art it is often still present tangentially Though the essays in this volume bridge two historical periods they have coherent thematic links dealing with abjection embodiment and phenomenology Whether figurative or abstract sacred or secular medieval or modern the body maintains a presence in these works even when it is not at first apparent Exploring the Body Amanda Jean Unruh,2009 *Body and Soul* Rachel Rosenfield Lafo,1994 **Life and Death** Silvia Fok,2013 For all their ubiquity life and death have not been fully explored as integral themes in many forms of contemporary Chinese art Life and Death addresses that lacuna Exploring the strategies employed by a variety of Chinese artists who engage with these timeless concerns Silvia Fok opens a new line of inquiry about contemporary art in a rapidly changing environment Fok focuses in particular on the ways in which these artists use their own bodies animals bodies and other corporeal substances to represent life and death in performance art installations and photography Over the course of her investigations corporeality emerges as a common means of highlighting the social and cultural issues that surround these themes By assessing its effectiveness in the expression of life death and related ideas Fok ultimately illuminates the extent to which we can see corporeality as a significant trend in the history of contemporary art in China Her conclusions will fascinate scholars of performance and installation art photography and contemporary Chinese art **The Schools of Modern Art in Germany** J. Beavington Atkinson,Joseph Beavington Atkinson,1880 **The Visible and the Invisible** ,1996 **Posthuman and Nonhuman Entanglements in Contemporary Art and the Body** Justyna Stępień,2022-05-15 Disclosing the interconnectedness of human and nonhuman bodies understood here as more than human entanglements this book makes a crucial intervention into the field of contemporary artistic studies exploring how art can conceptualize material boundaries of entangled beings Doing Drawing on critical posthumanist and new materialist thought in this book nonhumans become subjects of ethics aesthetics and politics that produce equally relevant meanings Designed to include multiple artistic perspectives and forms of expression which range from sculptures to bio art and performative practices the book argues that we are entangled with other organisms around us not only by our socio cultural connections but predominately by the transformations that we all undergo with the world s materiality Thus the artistic works discussed do not merely reflect the world but transform it offering solutions for practising alternative ethical values and acting better with and for the world The book will be of interest to scholars working in art history cultural studies media studies body studies performance studies animal studies and environmental studies The Marked Body Lydia Mazer,2007 The Silent Rhetoric of the Body Matthew Craske,2007 Matthew Craske looks closely at tomb sculptures in their social context He discusses a large number of monuments by many different sculptors all with a knowledge of the person commemorated and the circumstances behind the commission **The Ideals and Tendencies of Modern Art** Edward Clarence Farnsworth,1917 The Body Electric Corcoran Gallery of Art,1991 **Modern Art** Julius Meier-Graefe,1908 **Journal of Contemporary Art** ,1990 **Bodycheck** Luk Van den Dries,2002 In ice hockey the term body check refers to a specific

move to gain control It is a blow from body to body a dynamic clash of physical strength which will determine the course of the game In this book too the body is checked and there is physical confrontation Not in the hockey ring but on stage This book deals with the body in contemporary performing arts The focus is on exploring theoretical avenues and developing new concepts to grasp corporeal images more accurately This theoretical research is confronted with the voice of artists whose work explicitly deals with the body In depth interviews with a.o. Meg Stuart Wim Vandekeybus Romeo Castellucci Jer me Bel reveal a very broad range of views on the re presentation of the body in today s performing arts The combination of these two voices the theoretician s and the artist s shows that research by artists and cultural scientists is perfectly complementary
