criticism James Walter Caufield emphasizes the central role of philosophical pessimism in Arnold's master tropes of culture and conduct. Caufield uses Arnold's ethics as a lens through which to view key literary and cultural movements of the past 150 years, demonstrating that Arnoldian conduct is grounded in a Victorian ethic of renunciation—a form of altruism that wholly informs both Arnold's poetry and prose and sets him apart from the many nineteenth-century public moralists. Arnold's thought is situated within a cultural and philosophical context that shows the continuing relevance of renunciation to much contemporary ethical reflection, from the political kenosis of Giorgio Agamben and the *pensiero debole* of Gianni Vattimo to the ethical criticism of Wayne C. Booth and Martha Nussbaum. In refocusing attention on Arnold's place within the broad history of critical and social thought, Caufield returns the poet and critic to his proper place as a founding father of modern cultural criticism.

The Broadview Anthology of British Literature: The Victorian era, 2006

The Cambridge Companion to English Melodrama Carolyn Williams, 2018-10-04

This newly commissioned series of essays by leading scholars is the first volume to offer both an overview of the field and also current emerging critical views on the history, form, and influence of English melodrama. Authoritative voices provide an introduction to melodrama's early formal features, such as tableaux and music, and trace the development of the genre in the nineteenth century through the texts and performances of its various sub-genres, the theatres within which the plays were performed, and the audiences who watched them. The historical contexts of melodrama are considered through essays on topics including contemporary politics, class, gender, race, and empire. And the extensive influences of melodrama are demonstrated through a wide-ranging assessment of its ongoing and sometimes unexpected expressions in psychoanalysis, in other art forms, the novel, film, television, musical theatre, and in popular culture generally from the nineteenth to the twenty-first century.

Morgan,2009 How did nineteenth century poets negotiate the complex interplay between two seemingly antithetical modes lyric and narrative Narrative Means Lyric Ends examines the solutions offered by four canonical long poems William Wordsworth s The Prelude Lord Byron s Don Juan Elizabeth Barrett Browning s Aurora Leigh and Robert Browning s The Ring and the Book Monique Morgan argues that each of these texts uses narrative techniques to create lyrical effects effects that manipulate readers experience of time and shape their intellectual emotional and ethical responses To highlight the productive tension between the modes Morgan defines narrative as essentially temporal and sequential and lyric as creating an illusion of simultaneity The poems reinforce their larger narrative strategies she suggests with their figurative language Through her readings of these texts Morgan questions lyric s brevity and associability interrogates retrospection s importance for narrative examines the gendered implications of several genres and determines the dramatic monologue s temporal structure Narrative Means Lyric Ends offers four case studies of the interactions between broad modes and among specific genres changes our aesthetic and ideological assumptions about lyric and narrative expands the domain of narratology and advocates a renewed formalism
