The Gun That Changed The World:

The Gun that Changed the World Mikhail Kalashnikov,2006-10-27 The Russian word that is most frequently spoken throughout the world isn't Lenin gulag or perestroika it's Kalashnikov The reason for this is simple there are 80 million Kalashnikovs in circulation on five continents Once invented the AK 47 assault rifle became the most widely used weapon in the world from Vietnam to Palestine from Cuba to Iraq it was at the heart of conflicts and struggles everywhere It is the only firearm that has ever been depicted on a national flag that of Mozambique where it symbolizes liberation Mikhail Kalashnikov himself who was born in 1919 here tells his life story with the help of Elena Joly for the first time his deportation to Siberia with his family while still a child his time as a soldier in a tank regiment his invention of the world's most famous weapon and his turbulent life under Stalin Khrushchev Brezhnev Gorbachev and Yeltsin This is a remarkable portrait of a man of ingenuity and vitality in the context of the often frightening and terribly unforgiving Russia of the twentieth century

The Story of Guns Katherine McLean Brevard,Davis Worth Miller,2010 When the Chinese invented gunpowder in 850 their explosive invention became the basis for almost every weapon used in war It radically changed warfare all over the world affecting the way battles were fought throughout the Middle Ages When guns were invented five centuries later the world was again transformed Explosive weaponry was available to the individual creating a new class of soldier and giving birth to the modern army

Guns have never been as prevalent in American culture as they are at this moment Most contemporary conversations on guns either highlight the gun as just a tool used in mass killings or a right to be fiercely defended eventually whatever progress these debates foster in the public conversation tend to halt altogether once the old clich guns don t kill people people kill people is trotted out These gun control and gun violence discussions take the gun as passive object ignoring the changing effects and the very agency that guns may deploy as politicized objects What happens if we reset the conversation and admit that guns and not the people behind them kill people The Lives of Guns offers a new and compelling way of thinking about the role of the gun in our social and political lives In gathering ideas from law science studies sociology and politics each chapter turns the stale standard gun conversations around by investigating the gun as an object with agency In approaching guns from a technological perspective down to the very science of how they are created and how they fire The Lives of Guns takes up a number of questions such as How does the presence of these objects shape civic ideology What does it mean to develop and care for gun and gun accessories technology What do guns mean to those who build them versus those who fight for and against them What could happen when drone technology meets gun technology In bringing together fresh perspectives from leading lawyers political scientists and historians The Lives of Guns promises to move the gun debate forward by opening up new ways of thinking about these issues and broadening the scope of these perennial debates
