Masters Theses in the Pure and Applied Sciences Wade H. Shafer, 2012-12-06 *Masters Theses in the Pure and Applied Sciences* was first conceived published and disseminated by the Center for Information and Numerical Data Analysis and Synthesis CINDAS at Purdue University in 1957 starting its coverage of theses with the academic year 1955 Beginning with Volume 13 the printing and dissemination phases of the activity were transferred to University Microfilms Xerox of Ann Arbor Michigan with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volumes were handled by an international publishing house to assure improved service and broader dissemination Hence starting with Volume 18 *Masters Theses in the Pure and Applied Sciences* has been

disseminated on a worldwide basis by Plenum Publishing Corporation of New York and in the same year the coverage was broadened to include Canadian universities All back issues can also be ordered from Plenum We have reported in Volume 34 thesis year 1989 a total of 13 377 theses titles from 26 Canadian and 184 United States universities We are sure that this broader base for these titles reported will greatly enhance the value of this important annual reference work While Volume 34 reports theses submitted in 1989 on occasion certain universities do report theses submitted in previous years but not reported at the time

Digital Organizations - Leadership Disrupted Ganesh Shermon,2016-12-08 Discover the Digital Organization We think of organizations as an amorphous large complex institutions True but organizations are also symbols of its people who aspired nurtured and struggled away to make it work not to forget its collection of stories rituals episodes values experiences that can be broadly summarized and called as the culture And the ethics that their organizations display today and in times to come Organizations are products of a leader's imagination It takes the shape of that dream And in that dream good or bad lies its destiny Leadership is disrupted owing to digital influences in technology knowledge millennial mindset people attitudes skills behaviors rapid changes in customer needs speed and agility flexible structures dynamic creative designs unique people actions expectations and deliverance talent issues business climate HR programs work values and business ethics all displayed as culture A Digital Mind Set all about Leadership
