[Zen and the Art of Dying](#) Jared Wynn,2021-05-21 Kenny has two problems First he s a Reset which means that whenever someone murders him he wakes up on the morning of his dying day to start all over again Which might sound like a pretty awesome superpower but it s actually super sucky because he ll eventually die of cancer or old age after which point he ll just keep reliving his agonizing dying day forever His second problem is people keep murdering him So he teams up with another Reset and they storm the lab where it all began in an effort to undo this unordinary death disorder They keep dying

they keep trying and then they keep resetting and relaunching their attack until they almost succeed But then the girl Kenny fell in love with gets kidnapped and then his partner gets kidnapped and then pretty much everyone else gets kidnapped leaving Kenny all alone with his thoughts and a nagging question that just won't die what's left to save when everyone and everything you know is gone
