

Module 4 Quadratic Functions

What this module is about

This module is about the application of quadratic equations and functions in everyday situations. As you go over the different problems you will apply your knowledge and skills related to quadratic equations and functions in solving problems. Frequently, only one solution of the equation is relevant to the problem at hand. The root which does not satisfy the conditions of the problem must be rejected. It is always a good practice, then, to check the solutions to determine if one or both may be used.
