Potential of AI to Replace Teachers' Expertise: Ethics and Challenges Khan, Shahnawaz, Pringuet, Philippe, 2025-10-16 As artificial intelligence AI advances its integration into education sparks excitement and concern regarding its potential to replace human teacher expertise While AI tools can personalize learning automate administrative tasks and provide real time feedback substituting humans raises ethical questions and practical challenges Teaching also involves empathy critical thinking and social interaction which are difficult for current machines to replicate This dynamic begs for critical examination of how far AI should be allowed to go in educational settings and whether it can or should replace the human elements of teaching *Potential of AI to Replace Teachers Expertise Ethics and Challenges* explores the ethical considerations practical strategies and potential challenges associated with the integration of AI tools into the classroom It provides educators with the necessary knowledge and tools to effectively leverage AI to enhance the teaching and learning experience for students and educators This book covers topics such as ethics and law assessments and data science and is a useful resource for educators engineers policymakers academicians researchers and scientists **2025 Yearbook Emerging Technologies in Learning** Dominik May, Michael E. Auer, 2026-01-30 This book approaches digital transformation in higher education through an integrative lens helping readers understand how generative AI learning analytics immersive environments and evolving academic roles can be harnessed to create more adaptive inclusive and trustworthy learning experiences Its novelty lies in treating AI not as an isolated trend but as part of a wider ecosystem of technologies shaping pedagogy and institutional strategy The scope spans conceptual empirical and design based studies from across the globe all rigorously peer reviewed Aimed at scholars educators and institutional leaders the book serves both as a reference and a practical guide for informed decision making curriculum design and innovation initiatives Artificial Intelligence Risk Management Kurt J. Engemann, 2025-12-01 AI demonstrates the potential to impact virtually every aspect of modern life making it one of the most transformative technologies of our time AI has a wide range of applications across various sectors and as AI continues to evolve its integration into various activities is expected to deepen further changing how we work live and interact with the world around us AI systems from simple machine learning models to advanced autonomous agents carry potential risks that can affect individuals organizations and society as a whole Effective management of AI risks involves a comprehensive approach that includes risk identification proactive mitigation strategies and adherence to regulatory frameworks By addressing these areas stakeholders can navigate the complexities of AI development and ensure that these technologies are both beneficial and safe As AI continues to evolve so too must our strategies for managing its risks requiring ongoing dialogue research and collaboration across all sectors of society As AI technology advances it s likely that more specific and stringent regulations will be developed both nationally and internationally to manage the integration of AI into society effectively ARTIFICIAL LEARNING Efata Publishing Group, This text proposes a pedagogical

restructuring to integrate generative artificial intelligence into the educational system moving away from prohibition and plagiarism detection toward the design of authentic assessments It argues that the ubiquity of these tools demands a shift in focus from the final product to the learning process fostering critical competencies such as source verification oral defense and the development of a personal voice The book offers practical strategies for using AI as a cognitive scaffold and debating tool aiming to prevent intellectual atrophy and foster academic integrity

Pedagogical Innovation Through Technology-Enhanced Learning Design Ida Fatimawati Adi Badiozaman, Augustus Raymond Segar, 2026-04-10 Pedagogical Innovation Through Technology Enhanced Learning Design highlights the intersection of educational technology and higher education teaching through authentic practitioner experiences across global contexts Divided into four themes Pedagogical Innovations Innovative Assessment Practices Contextual Challenges and Inclusive Practices and Global Case Studies this book examines the transformative role of technology enhanced learning in fostering active learning inclusive practices and equitable access to education Through their focus on real world applications these original international contributions emphasise TEL s potential to create dynamic student centred learning environments in colleges and universities Each case study delves into challenges successful interventions and adaptive solutions providing readers with context aware approaches to implementing technology enhanced learning and assessment design

Practical Perspectives on Inclusive and Immersive Learning Environments Cardona-Reyes, Hector, Villalba-Condori, Klinge Orlando, Gallegos-Acosta, Alexis Edmundo, Ortiz-Esparza, Miguel Angel, 2026-02-25 Inclusive and immersive learning environments have become urgent educational imperatives The inclusion of immersive technology into education requires intentional design ethical awareness and sustained engagement with learners diverse cognitive physical and emotional needs Learning environments must be evaluated not only for their technical innovation but for their capacity to reduce barriers and expand meaningful participation The transition to these advanced pedagogies introduces complex challenges regarding infrastructure sustainability and the digital divide Further exploration may address the need for more rigorous data privacy reduced algorithmic bias and the urgent necessity for teacher training and digital literacy

Practical Perspectives on Inclusive and Immersive Learning Environments explores the design implementation and evaluation of technology enhanced learning environments that foster equity and inclusion in education It focuses on the role of immersive technologies and assistive digital tools in addressing the diverse needs of learners from various sociocultural cognitive and physical backgrounds This book covers topics such as special education instructional design and adaptive learning and is a useful resource for educators sociologists academicians researchers and scientists
