The chapter is devoted to measuring the characteristics of a neighborhood, which is the primary step to identifying its possible relation to the crime episodes that occur in the location. The authors seek to describe the process of measurement as directly and specifically as possible to compensate for the lack of precision; the procedure, according to them, is quite difficult, hence approximate results. The opening part, therefore, contains the interpretation of the terms that are used for characterizing a neighborhood, including recidivism, which is essential for improving specificity. Then, the authors comment on the indicators and dimensions that serve as a reference point for classifying a crime by its seriousness, in which section an essential point is the types of harm to the victim. At this stage, the vagueness of the terms, which results in the measurement result, is highlighted.

Regarding the actual procedure of characterization, the authors describe several approaches to it theoretically and give practical examples for additional demonstrativeness. These are, in particular, scoring, exhaustive and exclusive measurement, which techniques apply a set of variables that also are specified in the chapter. The next point on which the authors focus is the criteria for assessing the quality of measurement; an important nuance is that section is the difference between precision and accuracy. Wooden, Randy Blazak, 2001 Topics covered include exploring boundary between deviance and criminality in the lives of young people who are deeply involved in the youth culture show how youth culture is not a set of categories so much as it is a dynamic and creative response to the confusions of growing up in modern society *The Inmate Prison Experience* Mary K. Stohr, Craig Hemmens, 2004 The focus of this book is on what life is like in prison for the prisoners *For the Common Good* R. Robin Miller, Sandra Lee Browning, 2004 The passing of the Patriot Act in 2001 brought the tension between individual citizen s rights and governmental control to the forefront of American political discourse It seems that the state by claiming that they are increasing our collective security is in actuality operating against the common good More than anything else recent events highlight the need for texts such as For the Common Good This book is the culmination of research that investigated such topics as race class gender and sexuality violence and victimization prostitution employee drug testing hate speech legislation women processed by the criminal justice system the war on drugs and the war on crime All the pieces come from a critical perspective and some of them are written from a Marxian perspective All of the papers on the volume rely at least tacitly on the notions that reality is constructed deviance is created by the normative order and that the power that some groups have over that of others lies at the heart of societal social

control A key point of strength in this anthology is the methodological nature of the papers included Most of the pieces are based on original research using various methodologies Several theoretical pieces such as Bruce Arrigo s Law Crime and Social Control Making Sense of Conflict Radical and Postmodern Criminology and Andrew Taslitz s The Jury and the Common Good Synthesizing the Insights of Modern and Postmodern Legal Theories are included ensuring a more balanced approach The cross disciplinary nature of the work included here is a further advantage of this text The papers in For the Common Good include works by professionals from the fields of sociology criminology criminal justice public policy studies psychology and law And because nothing is as separate as two mounds of expertise efforts to bridge disciplinary gaps are critical Finally given our volatile political times where personal rights and freedoms are weighed against national security and found wanting on nearly a daily basis a rearticulation and further emphasis on a critical examination of law and social control appears urgent Editors Miller and Browning seek to respond to this need
