It is time for you to take back control over your life and no longer let the stuff around you define what you are going to feel. Living minimally will introduce you to the life you have always dreamed of, but in a way you have never seen before. Economic Stories For Undergrads Annavajhula J. C. Bose, 2022-05-10 Economics is the strangest and most dubious, as also frustrating animal of social sciences and humanities. The debate on what it is and what its strengths and weaknesses are in understanding and changing the economy and society for the better is never ending. This book cuts through this noise for econ undergrads with social concerns. It is crafted to be stuffed with peripatetic hops, skips, and intellectual and emotional jumps about the nature and character of the brain circuits of economics in terms of its methodological, political, sociological, anthropological, historical, feminist, ethical, ecological, spiritual, literary, technical, corporate, and other underpinnings. Diverse stories are told as alerts or nudges for the undergrads who, as aspirant youth, have in general a hyperbolic discounting attitude.

towards social change The mind and heart of the undergrad reading this book will hopefully be ignited so as to endeavour to find out the purpose of economic education and how economics should be learnt in order to rectify the failures of our current socio economic system The seriously academic undergrad may also be inspired to pursue the long range objective of doing integrated studies and research for maximised understanding and holistic policy making which is of course easier to say than do
