Keyword Intelligence Ron Jones, 2011-10-19 A unique book on the art and science of keyword research. Keyword research can make or break a marketing campaign, an optimization strategy, and pay per click ad campaigns. Written by a keyword research expert, this essential resource drills home the importance of targeting the right keywords or phrases in order to get traffic from search engines and social media channels. Author Ron Jones imparts his wisdom and experience for determining which keywords will work based on a searcher's intent, and he shows you how to research social, mobile, and video marketing tools that can ultimately become the foundation of a marketing campaign. Boasts detailed how-to information from one of the world's leading keyword research experts. Helps you learn how to craft a successful keyword campaign and capture a coveted spot on the first page of a results page. Pares down the essential information you need to know to use available tools to get keyword suggestions, forecast web site traffic, perform competitive research, and analyze results. Walks you through how to best apply keywords to SEO and PPC campaigns, as well as gain visibility with mobile marketing and integrate with traditional marketing efforts. Features case studies, examples, tutorials, tips, and previously undocumented techniques. No matter your level of experience working with keywords, **Keyword Intelligence** is the ultimate guide for learning how to best conduct keyword research and craft winning marketing campaigns.

SEO Keyword Research Made Simple for Dummies In 2021 Rand Welsh, 2021-02-12 Google's research shows that 1 out of every 5 of the 16 billion Google searches a day is in regards to a local business. How many of those are looking for your services? Another good news: 81% of users aged 16-64 relied on search engines to find products or services to buy online, reported July 2020. The heart breaker: Over 75% of users don't go past the first page of search results. This means that if your company's website is not on the first page of Google, Bing, or Yahoo for a search for your product or service, you are either losing a lot of business or your business is going to fail. It's not a curse, but a fact. Today my site generates 349,620 visitors every month, and a whopping 317,002 of those visitors, 72% come from Google. Obviously, there are a lot of factors that contributed to my site's success, and I have graciously listed and explained them in this book to help you do the same. Some of these factors include Content Search Intents, Technical SEO, Traffic analysis, Competitor analysis, Free keyword ideas, Off Page and On Page analysis. Keyword research is market research for the 21st century. They are like a compass for our SEO campaigns; they tell you where to go and whether or not you're making progress. That said, research has shown that 82% of new customers research a business online before making a purchase decision. And I want to ask: Do you even know where your business is in the Google rankings at all? I have given you tools to boost your online business. Whether you use them or not is left to you. SEO has come to stay, and those who knew earlier are raking in the dough, chilling at the beach in the Bahamas, and getting a tan with some soothing drinks. A study has proven that SEO has the highest ROI of any form of marketing. Which should be a rebuttal to every marketer out there. So if you want to guarantee your ROI and start profiting off of your business, you absolutely must become an SEO expert. And to become an SEO expert, you first need a good
