[Educational Administration and Supervision, 1916, Vol. 2 \(Classic Reprint\)](#) Charles Hughes Johnston, 2017-10-30 Excerpt from *Educational Administration and Supervision 1916 Vol 2* But this propaganda would probably not have gathered momentum very fast without President Jordan's dynamic articles and addresses urging the amputation of freshman and sophomore classes to prevent university atrophy and urging the relegation of these classes to the high school His advocacy of its upward extension made the public sit up and take notice and thought and prodded schoolmen into taking the initiative What had been a Berkeley idea at the beginning had become a California idea and the spectacle of Berkeley and Stanford climbing the Golden Stairs together hand in hand made its appeal

with great persuasiveness Moreover while Berkeleyans had been in the habit of speaking of six year high schools Dr Jordan gave general currency to the name Junior College and this proved much more potent in suggestible communities About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Problems in Elementary School Administration Frank Puterbaugh Bachman, 2015-07-10 Excerpt from *Problems in Elementary School Administration A Constructive Study Applied to New York City* Three important contemporary problems in the administration of elementary schools are treated in this volume by a method which is commending itself increasingly to students of Education and has a special significance for all officers of school administration and supervision These problems arise when the establishment of intermediate schools or junior high schools is under consideration when we seek to ascertain what a satisfactory rate of promotion is and under what conditions we may hope for a maximum rate of promotion and when we try to secure age grade standards that will yield us usable and valid information concerning the number of normal age over age and under age children in the schools and the method employed in dealing with these problems is the statistical or objective method the method that is free from personal bias or general opinion and seeks to arrive at valid conclusions on the basis of incontestable and well organized data Dr Bachman's brief but comprehensive introduction states these problems clearly and also the principles of method on which his studies are based The main body of the volume consists of three parts each dealing with one of the problems under consideration Parts I and II constitute Dr Bachman's contribution to the report submitted by me to the Committee on School Inquiry of the Board of Estimate and Apportionment of the City of New York in 1912 and Part III is a report made to that Committee after my term of service had closed About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Educational Administration, Supervision, and School Management Jagannath Mohanty,1990 **Educational Administration Supervision, Vol. 1 of 7** Warwick Hughes Johnston,2017-09-15 Excerpt from Educational Administration Supervision Vol 1 of 7 Including Teacher Training January 1921 One reason why we are justified in discussing a state plan Of rating teachers is found in the attempt of our State Department of Public Instruction to Operate a teacher placement bureau The proper discharge of this function is impossible unless the State Department has definite reliable and comprehensive data as to the merits Of great numbers of teachers In fact the ideal in placement can be reached only when the State Department has on file such data regarding every teacher in the state It now happens that those teachers are most likely to be promoted who give most attention to securing better places while the most faithful and efficient who do the work of each day without reference to personal recognition remain unrecognized and at last retire with the conviction that Merit does not win in teaching Our state machinery for promoting teachers can not be made inclusive without an army of inspectors and that is lacking The substitute program is a uniform method of rating teachers so that superintendents shall be speaking a common language when they endorse teachers to the State Department or to each other The endorsements now submitted in behalf of teachers come too often from those who know little about the ones endorsed and they frequently omit the things we most wish to know Before attempting to present a rating plan adapted to South Dakota conditions we may remark upon the attitude taken toward rating plans where they are in use and a few of the administrative questions that arise in that connection Most of the systems using a score card for teachers report that the teachers are friendly to it Of sixteen cities reporting on this only two indicate general opposition or skepticism on the part of the teaching force This is not strange NO plan can long survive in a system if the teachers are opposed to it No doubt the absence of a rating card in many systems is a result of the unfavorable attitude of the teachers About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst
