Shimko International Relations:

International Relations Keith L. Shimko, 2007-07 *International Relations Perspectives and Controversies* offers an innovative approach to this introductory course. Each of the topical chapters covers an enduring and important debate in the field and examines how political actors or political thinkers explain and defend their different opinions. This format offers the students the chance to understand important issues in International Relations as dynamic struggles over resources and power. Each chapter is structured in four parts. The first part provides a historical overview of the issue, its origins, evolution, and current status. The middle two sections of each chapter map out the opposing or contrasting points of view within the debate. These debates are followed by an evaluation of the merits of each position and the scholarly and political assessment of the situation. The goal of the text is to help students think systematically and critically about international affairs. By distilling the discussion from a variety of viewpoints rather than simply providing articles by scholars who disagree, the author highlights meaningful distinctions among differing political positions in a way that helps students understand not only the headlines from today and yesterday but more importantly those from tomorrow. New! The text has been reorganized to present the discussion of power politics (Chapter 3) before the coverage of war and human nature (Chapter 5). New! Expanded coverage of IOs and NGOs includes the European Union as related to security amidst anarchy (Chapter 3) and the role of Amnesty International and other NGOs in human rights activism (Chapter 10). New! Expanded and updated coverage of the Clash of Civilizations in Chapter 12 is found both in the body of the chapter and in the Points of View readings at the end of the chapter. New! Updated Points of View readings which present primary sources such as official foreign policy statements, government documents, news stories, debate transcripts, and editorials expand on the chapter discussions. New! Topics include: Should We Practice Free Trade in Agriculture? Does Foreign Aid Promote Development? Can a Nuclear Iran be Deterred? and Did 9/11 Reflect a Clash of Civilizations? Marginal glossary allows students to access key terms without interrupting their reading. End of chapter pedagogy includes bulleted chapter summaries, a list of key terms with page numbers, suggestions for further reading, critical thinking questions, endnotes, and references to relevant web sites. *International Relations* Keith L. Shimko, 2011-12 *INTERNATIONAL RELATIONS: PERSPECTIVES, CONTROVERSIES, AND READINGS* 4E International Edition teaches readers to think critically about international politics. Taking an innovative approach, the text delivers brief topical coverage with a debate point of view framework. Each topic has primary source readings increasingly relevant in our global community and completely up to date. Each chapter covers an important debate in the field. By looking at differing perspectives, the book encourages students to be able to use their conceptual and analytical tools to understand today's global issues as well as be prepared to understand tomorrow's.

The New Warfare J. Martin Rochester,2016-02-19 This book looks at the evolving relationship between war and international law examining the complex practical and legal dilemmas posed by the changing nature of war in the contemporary world whether the traditional rules governing the onset and conduct of hostilities apply anymore and how they

might be adapted to new realities War always messy has become even messier today with the blurring of interstate intrastate and extrastate violence How can the United States and other countries be expected to fight honourably and observe the existing norms when they often are up against an adversary who recognizes no such obligations Indeed how do we even know whether an armed conflict is underway when modern wars tend to lack neat beginnings and endings and seem geographically indeterminate as well What is the legality of anticipatory self defense humanitarian intervention targeted killings drones detention of captured prisoners without POW status and other controversial practices These questions are explored through a review of the United Nations Charter Geneva Conventions and other regimes and how they have operated in recent conflicts Through a series of case studies including the U S war on terror and the wars in Afghanistan Iraq Gaza Kosovo and Congo the author illustrates the challenges we face today in the ongoing effort to reduce war and when it occurs to make it more humane

Theories of International Relations Stephen Chan, Cerwyn Moore, 2006-01-12 Comprises 80 articles representing the most influential theoretical writings by international relations scholars Introduced by an essay from Stephen Chan and Cerwyn Moore the four thematically organised volumes cover the major traditions of IR theory Together these four volumes provide broad coverage of the subject and historical depth

German Thought and International Relations Robbie Shilliam, 2009-03-26 A fundamental question for IR is whether the value system of liberalism can be universalized or if in fact the illiberal reality of international politics systematically rules out such a universalization The book addresses this issue by focusing on the rise and fall of a specific liberal project supported by influential German intellectuals

Intentions in Great Power Politics Sebastian Rosato, 2021-04-20 Why the future of great power politics is likely to resemble its dismal past Can great powers be confident that their peers have benign intentions States that trust each other can live at peace those that mistrust each other are doomed to compete for arms and allies and may even go to war Sebastian Rosato explains that states routinely lack the kind of information they need to be convinced that their rivals mean them no harm Even in cases that supposedly involved mutual trust Germany and Russia in the Bismarck era Britain and the United States during the great rapprochement France and Germany and Japan and the United States in the early interwar period and the Soviet Union and United States at the end of the Cold War the protagonists mistrusted each other and struggled for advantage Rosato argues that the ramifications of his argument for U S China relations are profound the future of great power politics is likely to resemble its dismal past
