and from Frinton to the Far East *DESTINATION CULTURE: TOURISM, MUSEUMS AND HERITAGE (INTERLOAN 322011)*. , *Tourism and Visual Culture Methods and cases* Peter M. Burns, Cathy Palmer, Jo-Anne Lester, Lyn Bibbings, 2010 The study of tourism as a complex social phenomenon beyond simply business is increasing in importance Providing an examination of perceptions of culture and society in tourism destinations through the tourist's eyes this book discusses how destinations were and are created and perceived through the lens of the tourist's gaze **Traditional Dwellings and Settlements Review** ,1999 Rethinking Cultural Tourism Greg Richards, 2021-04-30 This insightful book reappraises how traditional high culture attractions have been supplemented by popular culture events contemporary creativity and everyday life through inventive styles of tourism Greg Richards draws on over three decades of research to provide a new approach to the topic combining practice and interaction ritual theories and developing a model of cultural tourism as a social practice *Emotion in Motion* Dr David Picard, Professor Mike Robinson, 2012-11-28 What happens when tourists scream with fear shout with anger and frustration weep with joy and delight or even faint in the face of revealed beauty How can certain sites affect some tourists so deeply that they require hospitalisation and psychiatric treatment What are the inner contours of tourist experience and how does it relate to specific emotional cultures What are the consequences of the emotional cultures of tourists upon destinations How are differences in emotional culture mobilized and played out in the transnational contact zones of international tourism While many books have engaged with the structural frames of tourist practice and experience this is the first to deal with the emotional dimensions of tourism travel and contact and the ways in which they can transform tourists destinations and travel cultures through emotional engagements The book brings together an international array of scholars from anthropology psychiatry history cultural geography and critical tourism studies to explore how the movement to and through the realms of exotic people wild nature's subliminal art spirit worlds metropolitan cities and sexualised others variably provoke emotions peak experiences travel syndromes and inner dialogues The authors show how tourism challenges us to engage with concepts of self other time nature sex the body and death Through a set of ethnographic and historic cases they demonstrate that such engagements usually have little to do with the actual destination but rather are deeply anchored in personal memories repressed fears and desires and the collective imaginaries of our societies Sociological Abstracts Leo P. Timothy, 2011-08-03 One of the most salient forms of modern day tourism is based on the heritage of humankind The majority of all global travel entails some element of the cultural past as hundreds of millions of people visit cultural attractions heritage festivals and historic places each year The book delves into this vast form of tourism by providing a comprehensive examination of its issues current

debates concepts and practices It looks at the social physical and economic impacts which cause destinations site managers and interpreters to consider not only how to plan and manage resources but also how to portray the past in ways that are acceptable accurate accessible and politically relevant In the process however the depth of heritage politics the authenticity and inauthenticity of place and experience and the urgent need to protect living and built cultures are exposed The book explores these and many other current issues surrounding the management of cultural resources for tourism In order to help students relate concepts to real world situations it combines theory and practice is student learning oriented is written accessibly for all readers and is empirically rich

Cultural Tourism in a Changing World Melanie Kay Smith, Mike Robinson, 2006-09-12 At the interface between culture and tourism lies a series of deep and challenging issues relating to how we deal with issues of political engagement social justice economic change belonging identity and meaning This book introduces researchers students and practitioners to a range of interesting and complex debates regarding the political and social implications of cultural tourism in a changing world Concise and thematic theoretical sections provide the framework for a range of case studies which contextualise and exemplify the issues raised The book focuses on both traditional and popular culture and explores some of the tensions between cultural preservation and social transformation The book is divided into thematic sections Politics and Policy Community Participation and Empowerment Authenticity and Commodification and Interpretation and Representation and will be of interest to all who wish to understand how cultural tourism continues to evolve as a focal point for understanding a changing world

Travels in Paradox Claudio Minca, Tim Oakes, 2006-03-30 This innovative volume focuses on tourism through the twin lenses of cultural theory and cultural geography Presenting a set of innovative case studies on tourist destinations around the world the contributors explore the paradoxes of the tourist experience and the implications of these paradoxes for our broader understanding of the problems of modernity and identity The book examines how tourism reveals the paradoxical ways that places are both mobile and rooted real and fake inhabited by those who are simultaneously insiders and outsiders and both subjectively experienced and objectively viewed The concepts of travel and mobility long have been used to explain modern identity and social behavior but this work pushes beyond the established literature by considering the ways that place and mobility are inherently related in unexpected even contradictory ways Travel the international cast of authors contends occurs in place rather than between places Thus instead of offering yet another interpretation of the ways modern societies are distinguished by their mobilities in contrast to the supposed place bound quality of traditional societies the chapters here collectively argue for an understanding of modern identity as simultaneously grounded and mobile This rich blend of empirical and theoretical analysis will be invaluable for cultural geographers anthropologists and sociologists of tourism

Great Expectations Jonathan Skinner, Dimitrios Theodossopoulos, 2011-10-01 The negotiation of expectations in tourism is a complex and dynamic process one that is central to the imagination of cultural difference Expectations not only affect the lives and

experiences of tourists but also their hosts and play an important part in the success or failure of the overall tourism experience. It is for this reason the authors argue that special attention should be given to how expectations constitute and sustain tourism. The case studies presented here explore what fuels the desires to visit particular places to what degree expectations inform the experience of the place and the frequent disjunctions between tourist expectations and experiences. Careful attention is paid to how the imagination of the visitor inspires the imagination of the host and vice versa how tourists and host communities actively imagine, re-imagine and shape each other's lives. This realization has profound consequences not solely for academic analysis but for all those who participate in and work within the tourism industry.

Cultural Tourism in a Changing World Melanie K. Smith, Mike Robinson, 2006

The Influence of the Tourist Industry and Municipality on Cultural Changes Nora Görne, 2011-08-30. Essay from the year 2010 in the subject Geography Earth Science Tourism Geography grade A Utrecht University Roosevelt Academy language English abstract. That tourism flows pollute the local culture¹ and degrade the authenticity of a location. Desforges 517-518 has almost become a truism. In fact as Coleman and Crang observe such critiques are as old as tourism itself qtd in Desforges 522-524 and are linked up with a wrong understanding of places at least from a human geographical point of view. If detractors state that a locality has become inauthentic under touristic influence than in reverse it must have been authentic meaning genuine unaffected and stable before travelers visited it and brought their own culture. In contrast there is basically no place which developed without the influence of travelers. As Doreen Massey notes a place is not the way it is because of internal characteristics but because of global linkages qtd in Crang 45-49 and as Desforges adds tourism and travel are merely a new form of interconnection between places 523. For instance the Dutch city Middelburg gained some of its today's distinctive appearance and character by the slave trade and the resulting prosperity some hundred years ago. Encyclopædia Britannica. As Greenwood concludes some of what we see as destruction is construction 182. However distinctive local traditions like certain ceremonies can change or even lose not only their original meaning but also the sense for residents under the influence of mass tourism. Hall and Page 122. Greenwood 181-182. One example for such a change of meaning can be seen in the development of the wine festivals in the Palatinate in Germany which will be examined later.

Change in Tourism Richard Butler, Douglas G. Pearce, 1995

Cultural Tourism Hilary Du Cros, Bob McKercher, 2015. Bob McKercher is the first author listed on the title page of the previous edition.

Touring Cultures Chris Rojek, John Urry, 2002-09-11. It is becoming ever clearer that while people tour cultures, cultures and objects themselves are in a constant state of migration. This collection brings together some of the most influential writers in the field to examine the complex connections between tourism and cultural change and the relevance of tourist experience to current theoretical debates on space, time and identity.
