Keyword Research 2021: a Definitive Guide Brian Conwell, 2020-07-20

Is getting a return on your investment of thousands of dollars per hour part of your plan? You've probably heard that the best place to hide a dead body is on the second page of Google. It's an expensive joke by the world-renowned SEO gurus but practically true. In fact, statistics have shown that less than 1% of internet users click results on the second page of Google. In short, if you rank on page two or beyond, you're practically invisible. That's why I have taken my time to create this comprehensive guide using practical examples and infographics to give an easy-to-understand overview of each topic. Even if you're no techie expert by any stretch or a startup with no idea about SEO and needs to be spoon-fed the information or you wish to save yourself some thousands of dollars hiring professionals, then this is the book for you. The wealth of ideas and solutions here include what I also learned from fellow insanely SEO experts like Neil Patel, Seth Godin, and Brian Dean to enable you to manage that business with finesse.

What Can I Learn In This Book? The killer and easiest way to conduct SEO keyword research. How to find keywords. How to choose the right keywords. How to analyze keywords based on searcher intent. How to use popular keyword research tools at no cost. Advanced keyword research tips. Also, I'm going to show you the best free tools out there, their features, and what makes them stand out. With this, even if you're a startup individual or an established company, the free tool ideas will help you improve targeting and review and improve the effectiveness of online campaigns at zero.

Niche research and selection is one of the most important tasks you would carry out when starting an online business. If you don't get niche selection right, then nothing else works after no matter how well you carry out the other tasks like product creation and marketing. Keyword research is the practice of finding and analysing actual search phrases people enter into search engines when they're finding information online. You don't get to decide on a niche or pick a niche. Rather, you have to FIND a niche in the market that is currently profitable. With keyword research, you get to see real customer activity which enables you to find out if people are looking for solutions online for a particular subject area or not. If they are searching online, then what kind of phrases are they using to search for the information? Are the search volumes large enough to be potentially profitable? How about the competition? These

are the questions you have to ask You don't target a demographic or select a group to market to You FIND what is currently selling in the market and make decisions based on that This is where this book comes in Keyword Research will teach you how to find out what people are actually actively looking for and spending money on So you get to find out the right niche to enter based on real statistics on current customer behaviour rather than guess work or speculation Hence you dramatically increase your likelihood of success in doing business online In this book you'll learn How to adopt the mindset of a marketer so you actually succeed online where the majority fail The Niche Test 4 questions that will enable you determine if a Niche is a viable business opportunity or not Step by step instructions for how to narrow down your niche using examples How to brainstorm for Niche seed ideas and where to search for ideas What to look out for when finding keywords specifically for Affiliate Marketing How to find Long Tail Keywords to target with your posts and articles for Search Engine Optimization SEO How to find Long Tail Keywords using free tools available online How to carry out Competitor Analysis using free tools available online A super fast way to find and analyse low competition Long Tail Keywords using paid tools BONUS A review of 33 highly profitable niches online to kick start your brainstorming Want to know more Scroll up and click on the buy button and get started today

Find Golden Keywords With Free Software Timo Hofstee, 2014-07-11 Do you want to know how to find golden keywords with Google Keyword Planner One of the keys to get lots of traffic to your website is ranking high on Google preferably on the first page I hear you say Impossible Well it's not In this book I show you in a step by step process how to find THE golden nuggets with Google Keyword Planner And there are thousands of them You just have to look in the right direction and know HOW to search for them Is this easy to apply and does it work Yes This book is for the complete novice And even for advanced users there is some really useful information in this book As with all my books all steps are extremely well explained in a detailed step by step approach In this book I explain THREE methods how to get to REAL results In the book I take you through a real life example that I did online off the cuff And I found keywords that all scored on the FIRST page of Google Who is this book for This book is for everyone that writes articles or that want to setup a website and asks themselves THE question What should I target How do people FIND my work Because even if your work is EXTREMELY good if no one can find it then it's useless This book will show you in the usual no fluff writing how to find keywords that score No previous knowledge necessary If you know how to click on buttons in Google Keyword Planner and you know how to handle a spreadsheet you're in As an added bonus I have added an additional step by step approach how to do the same task but with Market Samurai But that is just optional for those that want to take the FAST track Get started NOW and find those golden nuggets
