## **Expert Side Hustles For Students 3307:**

**Oxford Textbook of Cancer in Children** Hubert N. Caron, Andrea Biondi, Tom Boterberg, François Doz, 2020-10-08 The outcome for children with cancer has shown enormous improvement since the first edition of this book was published in 1975. In economically privileged countries overall survival rates have now reached 80% at five years from diagnosis and most of these young people will become long term survivors. The Oxford Textbook of Cancer in Children offers state of the art descriptions of the approach needed for the optimal management of children with cancer and guidance on current treatments available due to the advances made over the past decade. This seventh edition has been thoroughly revised and updated including brand new chapters on cancer immunotherapy in children and cancer in adolescents and young adults plus expanded treatment of tumours of the brain and central nervous system. The book primarily provides clear and up to date clinical guidance for use in treatment settings whilst offering a useful background to the biology of individual tumour types and the history of the development of specific treatments. With an international and multi disciplined authorship comprising of paediatric oncologists, surgeons, radiotherapists, imaging specialists, psychologists, nurses and many others, the text illustrates how the paediatric oncology community works globally and collaboratively in order to drive forward new therapies, build our knowledge of these diseases and achieve the common aim of curing childhood cancer. In this new edition Professors Biondi and Caron have been joined by Professor François Doz who has a distinguished international reputation particularly in the treatment of childhood brain tumours and retinoblastoma as well as early drug development. They have also been joined by Professor Tom Boterberg a world renowned radio oncologist for children with cancer. This book will be of value to paediatric oncologists, trainee paediatric oncologists, paediatric haematologists and other professionals working in paediatric oncology, nurses, AHPs, surgeons and clinical oncologists.

**New York Magazine**, 1979-12-31 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.
