Science Teachers Perceptions Of Stem Education

Erica Sheilasha Gaines

Science Teachers Perceptions Of Stem Education:

Elementary Teachers' Perceptions of Science, Technology, Engineering, and Mathematics Education in K-5 Schools

Debbie B. Owens, 2014-10-17 This is a research study to explore how elementary teachers feel about integrating STEM education into their classrooms. Although the school district website provided some useful and relevant information about the STEM program, the skill competencies of the K-5 teachers and the challenges they faced in implementing the STEM curriculum were unknown. The researcher conducted a descriptive case study with a sample of 12 elementary teachers purposefully selected from a pool of K-5 teachers from two area schools, focused on the teachers' perceptions of STEM education, their competencies, and professional development. Data collection consisted of interviews, document analysis, and field notes. The researcher analyzed data using the qualitative method. Findings from the study suggested that teachers had different perceptions of STEM education based on prior experience: b) most teachers lacked confidence in their knowledge and abilities to effectively integrate STEM; c) teachers felt a need for STEM hands-on training and professional development; and d) teachers did not have enough time, leadership, and proper guidance to integrate STEM effectively. The findings have broad implications for the field of educational technology and future research. The researcher recommends skilled STEM leadership that can drive curriculum development as well as teacher preparation that supports STEM programs.

A New Era of Science Education

Hui-Hui Wang, 2012 Teacher Perceptions of Inquiry and STEM Education in Bangladesh

Kazi K. Shahidullah, 2016 This dissertation reports lower secondary science teachers' perceptions of current practice in Dhaka, Bangladesh, concerning inquiry and STEM Education in order to establish a baseline of data for reform of science education in Bangladesh. Bangladesh has been trying to incorporate inquiry-based science curricula since the 1970s. Over time, the science curricula also aligned with different international science education movements such as Science for All, Scientific Literacy, Science Technology and Society, Science Technology Engineering and Mathematics. STEM is the most recent science education movement in international science education. This study explored current practices and perceptions of lower secondary science teachers in order to establish a baseline of current practice so that future reform recommendations may be pursued and recommendations made for Bangladesh to overcome the inquiry-based challenges and to incorporate new STEM-based science education trends happening in the US and throughout the world. The study explored science teachers' perceptions and readiness to transform their science classrooms based on a self-reported survey. The survey utilized a Likert-type scale with a range from 1 (very strongly disagree) to 6 (very strongly agree) among four hundred lower secondary science teachers, teacher training college faculty, and university faculty. The data is presented in four different categories: curriculum, instruction, assessment, and professional development. Results indicated that the participants understand and practice a certain level of inquiry in their science classrooms, though they do not have adequate professional development. Participants also stated that they do not have sufficient instructional materials and the curriculum is not articulated enough to support

inquiry On the other hand the participants reported that they understand and practice a certain degree of inquiry and STEM based science education but they also state that the current curriculum and instructional materials are not sufficient to practice inquiry nor to integrate more than one or two disciplines with science as is required in STEM integrated teaching Finally this study recommends a framework for science education reform for Bangladesh based upon a combination of successful international science education reformation practices

Exploring Teachers' Perceptions and Experiences of Middle School STEM Education Programs, 2021 The need for science technology engineering and mathematics STEM educated workers prepared to compete in the global marketplace has led to the need for advances in STEM education Demand for STEM educated students and workers has increased yet a deficit in middle school students participating in school based STEM programs in middle school exists This phenomenological qualitative study aimed to explore the perceptions and experiences of middle school teachers who are teaching in accredited STEM programs More specifically this study aimed to examine the lived experiences of middle school teachers implementing programs that provide rich STEM experiences to discover common perceptions and experiences shared by the participants and identify strategies to improve STEM programs for middle school students A phenomenological qualitative approach was selected to extract an in depth rich understanding of the experience through the participants voices Data were collected from six middle school teachers currently implementing accredited STEM programs The major themes that emerged from this research were Structured Support Teacher Beliefs and Student Factors

Current Math Teacher Perceptions of STEM Careers Ho King Alan Fong, 2019 This study explores teachers perceptions of Science Technology Engineering and Mathematics STEM Education and what role it plays in today s mathematics classroom The following three research questions are explored How do currently practicing teachers perceive their understanding of STEM education and STEM careers in the math classroom How do currently practicing teachers perceive their students degree of intrinsic motivation in mathematics How do currently practicing teachers perceive the use of gamification as a means to affect students level of intrinsic motivation in the math classroom Key findings include the following teachers valued STEM career discussion in the classroom as it offers a channel through which knowledge can be transferred teachers build rapport with students when they draw upon their own experience with STEM careers Better understanding of gamification at the classroom level is recommended before it can be a useful medium for motivating students in math

Rural Elementary Teachers' Perceptions of STEM Education Following STEM Kits Intervention Marcy Kaye Hood, 2024 This study served to enhance STEM education in rural areas elementary classrooms where schools often contend with limited resources The literature called attention to a gap in students not exposed to STEM instruction until they reached secondary school This gap was revealed in the literature to show a decline in students pursuing a career in STEM fields This action research study was carried out using a theory of change approach and was viewed via the constructivist lens The data was collected by having elementary teachers complete

a questionnaire after integrating STEM lesson kits in their classrooms throughout the intervention Findings showed that students who received early STEM instruction in elementary school developed an early interest in the subject and went on to continue STEM throughout their education and pursue professions in those disciplines These findings have implications that elementary teachers may teach STEM education in the classroom and see success and excellence in their students academic areas if given practical hands on materials and a mentor to guide them The STEM lesson kits are the essential resources for this research but resources alone cannot educate mentorship is required to complement the kits This dissertation suggests that STEM education become part of elementary school curricula aligned with Next Generation Science Standards NGSS and that appropriate mentors be available to teachers

The 9th Annual International Seminar on Trends in Science and Science Education (AISTSSE) 2022, 2023-10-04 This is the ninth time we are hosting this seminar and we are proud to inform you that this seminar is an annual event in our calendar and has been held every year since 2014 This year for the third year we are holding it via Zoom meeting online meeting due to Covid 19 pandemic We are inviting internationally recognized speakers from several countries to share their latest discoveries in the fields of Biology Chemistry Physics Mathematics and Science Education Well known researchers in science and science education will share their experiences and knowledge so that we can stay up to date with the latest information This is one of the goals of this seminar As science researchers we realize the importance of information exchange among us The new information enlightens our minds and gives us ideas on what to do next in our research and how to do it This new information often becomes the foundation for our next project in particular and sets the research trends for the upcoming year in general Information exchange also keeps us updated allowing us to give and receive suggestions and critiques that will lead to better results Therefore we need a forum where we can share and exchange information Seminars conferences and other scientific gatherings are the media through which we can do this Organizer Faculty of Mathematics and Natural Sciences of Universitas Negeri Medan Where Web Seminar via Zoom Meeting When Tuesday 8th November 2022 Theme The development of industrial based research in science and science education to improve research innovation strategy Topics AISTSSE 2020 included following topics 1 Mathematics Science 2 Mathematics Education 3 Physics Science 4 Physics Education 5 Biology Science 6 Biology Education 7 Chemistry Science 8 Chemistry Education 9 Computer Science 10 Science Education Scientific Committee 1 Prof Dr Syawal Gultom M Pd Universitas Negeri Medan Indonesia 2 Prof Dr Marleen Kamperman University of Groningen Netherland 3 Prof Manihar Situmorang M Sc Ph D Universitas Negeri Medan Indonesia 4 Prof Tsunenori Mine School of Engineering Department of Electrical Engineering and Computer Science Kyushu University Japan 5 Prof Dian Armanto M Pd Universitas Negeri Medan Indonesia 6 Prof Dr Herbert Sipahutar M Sc Universitas Negeri Medan Indonesia 7 Prof Abedel Karrem Nasser M Alomari Department of Mathematics Faculty of Science Yarmouk University Jordan 8 Prof Dr Bornok Sinaga M Pd Universitas Negeri Medan Indonesia 9 Prof Dr Muhammad Sattar Rasul Universitas Kebangsaan Malaysia

Supported by FORUM MIPA LPTK INDONESIA Perceptions of STEM by Secondary Agricultural Education Teachers in Pennsylvania Nicole R. Guise,2021 Our education system has emphasized Science Technology Engineering and Math STEM education as an important element of systematic educational outcomes The purpose of the study was to determine what if any areas of STEM education were perceived by current Pennsylvania secondary Agricultural Education teachers as areas of shortcomings and identify professional development experience needs A research study was conducted using an established survey instrument with the T STEM survey from the Friday s Institute for Education Innovation The questionnaire was distributed to a census of Agricultural Education teachers in Pennsylvania n 247 using the online survey platform Qualtrics Data was collected from 125 respondents Data analysis revealed differences in confidence between educators based on age gender and years of teaching experience Areas of perceived shortcomings in the STEM content areas by the respondents were science teaching and 21st century learning attitudes It is recommended that professional development opportunities addressing the needs of science instruction and 21st century learning attitudes be developed for Pennsylvania Agricultural Education teachers with opportunity for continual assessment of perceived needs to be responsive in educator engagement in STEM areas

Designing and Teaching the Secondary Science Methods Course Aaron J. Sickel,Stephen B. Witzig,2017-04-13 The improvement of science education is a common goal worldwide Countries not only seek to increase the number of individuals pursuing careers in science but to improve scientific literacy among the general population As the teacher is one of the greatest influences on student learning a focus on the preparation of science teachers is essential in achieving these outcomes A critical component of science teacher education is the methods course where pedagogy and content coalesce It is here that future science teachers begin to focus simultaneously on the knowledge dispositions and skills for teaching secondary science in meaningful and effective ways This book provides a comparison of secondary science methods courses from teacher education programs all over the world Each chapter provides

detailed descriptions of the national context course design teaching strategies and assessments used within a particular science methods course and is written by teacher educators who actively research science teacher education The final chapter provides a synthesis of common themes and unique features across contexts and offers directions for future research on science methods courses This book offers a unique combination of behind the scenes thinking for secondary science methods course designs along with practical teaching and assessment strategies and will be a useful resource for teacher educators in a variety of international contexts

STEM Success for All Stephanie Boyce,2019 The lack of participation of historically underrepresented groups i e Hispanics Blacks and women in science technology engineering and mathematics STEM is a serious issue in the United States Despite the intentional efforts at increasing STEM participation Black and Hispanic high school students graduate significantly less prepared for college level mathematics and science than their White counterparts As a result they are more likely to underachieve in college and inadvertently continue the cycle of STEM underrepresentation in college Using an anti deficit perspective this study explored a single high school science and math department s teachers perceptions about Culturally Relevant Education CRE practices as facilitating or hindering STEM interest and science and math achievement among students of color The following four behaviors of culturally relevant educators were explored a using culture as a bridge to connect to academic skills and concepts b facilitating students critical reflection of their lives and society c building students cultural competence to take pride in their culture and d critiquing of discourses of power to challenge the status quo The study was conducted in a high school primarily serving students of color that has met and exceeded state expectations for the last four years The study found that CRE practices were in fact perceived by teachers to be key in promoting the interest and academic achievement of their students The teachers cited meaningful relationships with students connecting their students interest with math and science content the incremental process of empowering students and departmental collaboration as the key contributing factors to their overall success Recommendations and implications for practice research and policy are included

STEM Education Approaches and Challenges in the MENA Region Alhashem, Fatimah,Pacheco-Guffrey, Heather,Boivin, Jacquelynne Anne,2023-08-03 In the Middle East and North Africa MENA region recent long term policy plans emphasize the ever increasing need to transition to 21st century skills and achieve sustainable development goals by preparing highly qualified nationals with credentials in STEM fields relevant to the current and future needs of the labor market Yet despite multiple educational reforms and substantial resources national and international indicators of student performance still demonstrate insignificant improvement in MENA students achievement in STEM subjects *STEM Education Approaches and Challenges in the MENA Region* contributes to the existing STEM literature by exploring factors that influence student participation in STEM in MENA countries The book also identifies the gaps in STEM education research in MENA countries and presents the current practices and challenges Covering key topics such as gender equity school administration and education systems this

BUiD Doctoral Research Conference 2023 Khalid Al Marri, Farzana Asad Mir, Solomon Arulraj David, Mostafa Al-Emran, 2024-03-28 This open access book presents selected contributions on a wide range of scientific and technological areas originating from the BUiD Doctoral Research Conference BDRC 2023 It discusses the following topics project management macroeconomic factors Fourth Industrial Revolution agility multiculturalism diversity inclusion leadership language discourse analysis curriculum critical thinking programming online learning and natural ventilation The contributions reflect the multifaceted nature of the research in three academic disciplines i.e. humanities formal science and applied science This publication shares with its readers genuine research studies and reflections from practitioners on the current practice and understanding in the three academic disciplines The significant findings of these studies have considerable educational industrial and economic implications This is an open access book

Transformative Leadership and Change Initiative Implementation for P-12 and Higher Education Mulvaney, Tracy, George, William O., Fitzgerald, Jason, Morales, Wendy, 2024-05-06 Transformative leadership emerges as the beacon guiding P 12 schools and higher education institutions through the intricacies of necessary change Leaders must confront the perennial challenges faced by educational institutions head on equipped with an array of innovative strategies and a commitment to fostering equitable practices from addressing inclusion diversity and belonging to navigating the complex terrain of school change In *Transformative Leadership and Change Initiative Implementation for P 12 and Higher Education* the echoes of Heraclitus's wisdom reverberate reminding educational leaders that the only constant is change This book delves into the core of transformative strategies employed by thought leaders across the educational spectrum from P 12 schools to university corridors Guided by transformative leadership principles this book traverses the intricate tapestry of topics such as technology integration educational entrepreneurship and global citizenship providing a roadmap for leaders to navigate the complexities of the modern educational landscape The emphasis on social emotional leadership and learning underscores the importance of nurturing the holistic development of students ensuring they thrive both academically and emotionally

The Russia-Ukraine War and Its Consequences on the Geopolitics of the World Chitadze, Nika, 2023-08-02 Geopolitics is a concept that shapes shifts following the socio political and economic changes made within or in neighboring states Usually the popularity in geopolitics is motivated by victory in war which binds the nation revives the national culture and promotes the spiritual and territorial expansion into neighboring states However the defeat in war can be motivating as well as the defeat catalyzes the creation and dissemination of geo political theories In the modern era further study on the Russia Ukraine war in relation to geopolitics must be considered *The Russia Ukraine War and Its Consequences on the Geopolitics of the World* analyzes the main geopolitical theories and discusses possible geopolitical economic military security and information consequences of the Russia Ukraine war The book also reviews the attitude of the main geopolitical players in the world

toward the war and their foreign policy and national security priorities Covering key topics such as democracy international security and geopolitical interests this premier reference source is ideal for government officials policymakers industry professionals researchers academicians practitioners instructors and students

Theoretical and Practical Teaching Strategies for K-12 Science Education in the Digital Age Trumble, Jason,Asim, Sumreen,Ellis, Joshua,Slykhuis, David,2023-01-17 Digital age learners come to the science classroom equipped with a wide range of skills and a wealth of information at their fingertips Although science and technology have enjoyed a symbiotic relationship the ubiquity of information technologies requires teachers to modify instruction and experiences for K 12 science learners Environmental and societal changes have impacted how and when students acquire and synthesize knowledge These changes compel us to modify and adjust to improve the practice of teaching science to meet the unique needs of students who are growing up in a society dominated by connected digital devices constant communication and the ubiquity of information

Theoretical and Practical Teaching Strategies for K 12 Science Education in the Digital Age disseminates theory informed practices for science teachers that increase their instructional effectiveness in teaching digital age learners It communicates how to increase science educators understandings of the needs of digital age learners develops theoretical and practical teaching strategies that align with science content and integrates technologies for learning with fidelity Covering topics such as design based inclusive science project based learning and science instruction this premier reference source is an excellent resource for administrators and science educators within K 12 education pre service teachers teacher educators librarians researchers and academicians

Handbook of Research on Science Education, Volume II Norman G. Lederman,Sandra K. Abell,2014-07-11 Building on the foundation set in Volume I a landmark synthesis of research in the field Volume II is a comprehensive state of the art new volume highlighting new and emerging research perspectives The contributors all experts in their research areas represent the international and gender diversity in the science education research community The volume is organized around six themes theory and methods of science education research science learning culture gender and society and science learning science teaching curriculum and assessment in science science teacher education Each chapter presents an integrative review of the research on the topic it addresses pulling together the existing research working to understand the historical trends and patterns in that body of scholarship describing how the issue is conceptualized within the literature how methods and theories have shaped the outcomes of the research and where the strengths weaknesses and gaps are in the literature Providing guidance to science education faculty and graduate students and leading to new insights and directions for future research the *Handbook of Research on Science Education Volume II* is an essential resource for the entire science education community

Middle Grades Research Journal Frances R. Spielhagen,2014-10-01 Middle Grades Research Journal MGRJ is a refereed peer reviewed journal that publishes original studies providing both empirical and theoretical frameworks that focus on middle grades education A variety of articles are

published quarterly in March June September and December of each volume year *Teacher Perceptions of Teaching Science Using the 5E Instructional Model* Erica Sheilasha Gaines,2021 Changes made to science education on the national level caused many changes for state education systems In the state of Georgia science education instructional leaders also saw the need for a change in the way science needed to be taught to students Due to the need to improve science teaching and learning and to increase interest in the STEM fields Georgia Standards of Excellence for Science were released in 2016 Science teachers were required to shift their instructional practices to teach science as a practice by engaging students in specific tasks aligned to science and engineering practices This study focused on the perceptions of middle and high school science teachers about the implementation of the 5E Instructional Model in science education Perceptions conceptual frameworks were used in a cohesive approach to understand the experiences middle and high school science teachers had toward the implementation process of a new instructional strategy A qualitative descriptive study was conducted to capture teachers perceptions of the 5E Instructional Model and its impact during their instruction To obtain descriptive data virtual semi structured interviews were conducted Purposive sampling was used to recruit eight middle and high school science teachers Interviews were transcribed and coded then findings were organized into themes Three major themes derived from the descriptive data were 1 Provided Structure to the Teaching and Learning Process 2 Required More Time to Develop and Implement Lessons 3 Provided Student Centered and Hands On Instruction The researcher discussed the implications of the study disseminated the findings and provided recommendations for future studies **Teachers' Perception of Educational Objectives and Examnations** ,1975 **The Rural Educator** ,2012

Science Teachers Perceptions Of Stem Education Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Science Teachers Perceptions Of Stem Education PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Science Teachers Perceptions Of Stem Education PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to

knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Science Teachers Perceptions Of Stem Education free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Science Teachers Perceptions Of Stem Education Books

What is a Science Teachers Perceptions Of Stem Education PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Science Teachers Perceptions Of Stem Education PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Science Teachers Perceptions Of Stem Education PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Science Teachers Perceptions Of Stem Education PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Science Teachers Perceptions Of Stem Education PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any

restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
