Responsibilities: A Critical Legal Defence of Human Rights Ian Turner,2025-11-11 For many human rights have become a panacea for the injustices of society globalisation poverty discrimination climate change etc But has this rights inflation been a prima facie good Has the rise in human rights merely propounded a self centred individualism exacerbating the marginalisation of large swathes of society who are already socially excluded Rightly human rights have been the subject of a multitude of criticisms from a range of critical perspectives Marxism critical legal studies communitarianism feminism critical race theory etc However this unique study pushes back against this tide of anti rights providing an original defence of human rights from the perspective of a progressive political community of rights holders and duty bearers Possessing rights might place a rights holder at the centre of their moral universe to the exclusion of all others but that holder of rights cannot expect others to bear the duty of their rights without exercising the same obligation to the rights of others in return So far from emphasising isolation and self interest responsibilities arising from the exercise of rights engender a keen sense of solidarity a principle integral to critical legal theory The book will be of interest to academics and researchers working in the areas of Human Rights Constitutional
