Writing Futures: Collaborative, Algorithmic, Autonomous Ann Hill Duin, Isabel Pedersen, 2021-06-18 This book is useful to understand and write alongside non-human agents; examine the impact of algorithms and AI on writing and accommodate relationships with autonomous agents. This ground-breaking, future-driven framework prepares scholars and practitioners to investigate and plan for the social, digital literacy, and civic implications arising from emerging technologies. This book prepares researchers, students, practitioners, and citizens to work with AI writers, virtual humans, and social robots. This book explores prompts to envision how fields and professions will change. The book's unique integration with *Fabric of Digital Life*, a database and structured content repository for conducting social and cultural analysis of emerging technologies, provides concrete examples throughout. Readers gain imperative direction for collaborative, algorithmic, and autonomous writing futures.

AI for Everyone Fajle Rasool Arif, 2026-02-06 *AI for Everyone: A Practical Handbook for the Modern World*. Artificial Intelligence is no longer a future concept; it is already shaping how we learn, work, communicate, and make decisions. Yet for many people, AI still feels confusing, technical, or intimidating. *AI for Everyone: A Practical Handbook for the Modern World* is written to change that. This book is a clear, practical, and human-centered guide to understanding Artificial Intelligence, designed for every educated reader, not just engineers or technology experts. You do not need any background in coding, mathematics, or computer science to benefit from this book. Written in simple, accessible English, the book explains what AI really is, how it works, and how it affects everyday life, careers, education, creativity, business, and personal growth. Rather than focusing on complex theory, this handbook focuses on real-world understanding and responsible use.
