

# Logical Fallacies

---

A **logical fallacy** is an error of reasoning. These can weaken the credibility of your paper and alienate your reader. The following examples illustrate some of the logical fallacies you should avoid. If you are concerned you may be unintentionally using a logical fallacy, talk to a professor or consult other resources for more information about logical fallacies.

## Irrelevant Appeals

Irrelevant appeals use information or arguments that are unrelated to the given material and include the following:

### Popular Appeal to Authority

This appeal relies on widespread acceptance, not logic.

**Example:** You shouldn't get uptight about copyright infringement. Everyone owns illegally copied music.

### Irrelevant Appeal

This appeal relies on outside authorities or sources that have no expertise about the subject.

**Example:** If a famous football player endorses a brand of sports medicine, then it must be an effective product.

### Appeal to Ignorance

This appeal relies on the absence of contradictory knowledge or evidence.

**Example:** Of course unicorns exist. No one has ever proven that they don't.

### Ad Hominem

This appeal relies on irrelevant characteristics of persons associated with an opposing argument. In politics, this is often called "mud slinging."

**Example:** We can't take this candidate seriously because he used to be an actor.

### Straw Man

This appeal misrepresents an opponent's position by turning it into an indefensible claim through misquoting or oversimplifying the issue.

**Example:** The school principal wants to stop serving cake in the cafeteria. He clearly wants us to go hungry.

### Emotional Appeal or Ad Misericordiam

This appeal relies on an irrelevant emotional appeal at the expense of logic.

**Example:** Look at the cute little puppy! How could such a sweet little thing be capable of eating your shoe?

### Red Herring

This appeal sidetracks an issue by bringing up unrelated information to distract the audience from the issue at hand.

**Example:** The car wouldn't have broken down if you would have taken out the trash when I asked.

## Improper Generalization

Improper generalizations summarize a point using inadequate evidence or faulty arguments and include the following:

### Hasty Generalization

This appeal makes a broad generalization based on scanty or inconclusive evidence.

**Example:** I'm never eating dinner again. I've tried cooking several dishes and all of them are disgusting.

**Disinformation** Donald A. Barclay, 2022-04-15 Does the idea of a world in which facts mean nothing cause anxiety Fear Maybe even paranoia Disinformation The Nature of Facts and Lies in the Post Truth Era cannot cure all the ills of a post truth world but by demonstrating how the emergence of digital technology

into everyday life has knitted together a number of seemingly loosely related forces historical psychological economic and culture to create the post truth culture Disinformation will help you better understand how we got to where we now are see how we can move beyond a culture in which facts are too easily dismissed and develop a few highly practical skills for separating truth from lies Disinformation explains How human psychology the very way our brains work can leave us vulnerable to disinformation How the early visions of what a global computer network would and should be unintentionally laid the groundwork for the current post truth culture The ways in which truth is twisted and misrepresented via propaganda and conspiracy theories How new technology not only spreads disinformation but may also be changing the way we think The ways in which the economics of information and the powerful influence of popular culture have contributed to the creation of the post truth culture Unlike the far too numerous one sided politically ideological treatments of the post truth culture Disinformation does not seek to point the finger of blame at any individuals or groups instead its focus is on how a number of disparate forces have influenced human behaviors during a time when all of humanity is struggling to better understand and more effectively control for better or worse challenging new technologies that are straining the limits of human intellectual and emotional capacity

**Writing Centers and Writing Across the Curriculum Programs** Robert W. Barnett, Jacob S. Blumner, 1999-02-28 Writing Centers have traditionally been viewed as marginalized facilities within their institutions At the same time faculty in all disciplines have come to stress the importance of good writing and institutions have created Writing Across the Curriculum WAC Programs to address this concern Often the interests of Writing Centers conflict with those of WAC programs and the theoretical foundations of the two may not necessarily be the same Nonetheless Writing Centers whether voluntarily or involuntarily have become more involved with efforts to promote Writing Across the Curriculum and have formed fruitful partnerships with WAC Programs While journal articles have begun to discuss these partnerships this book offers an extended treatment of the topic By examining the relationships between Writing Centers and WAC programs this volume challenges the view that Writing Centers are marginalized and demonstrates how they are aggressively moving toward the curricular center of education Each chapter examines the evolving theoretical practical and institutional relationships between Writing Centers and Writing Across the Curriculum programs By drawing from institutionally specific experiences expert contributors present a variety of approaches for establishing and developing effective Writing Center WAC partnerships Included are perspectives from established and emerging theorists from all levels including high schools community colleges small four year colleges and universities and major research institutions The

contributors accurately portray the true diversity of Writing Center WAC partnerships and assess the compatibility of these partnerships with larger institutional missions The volume touches on such topics as the use of computers in writing instruction the use of student writing tutors and the problems inherent in discipline specific language By deepening our knowledge of the merging of Writing Centers and WAC Programs this book sets the foundation for more advanced future research Current Index to Journals in Education ,1996 **Thomson Nelson Guide to Research and Writing in Political Science** Lucille Charlton,Mark Charlton,2006 Writing is an integral skill to the practice and discipline of Political Science Developed specifically for the Canadian marketplace the Thomson Nelson Political Science Writer s Guide provides students with writing instruction specific to the discipline Full of practical information on how to write various types of political science assignments from a basic essay to op ed pieces significant attention is paid to writing position papers and briefing documents and creating documents for use within the Parliamentary process The Thomson Nelson Political Science Writer s Guide is a practical guide to the research and writing of any type of political science assignment and includes numerous examples upon which students can model their writing It also enables students to work through all steps of an assignment from research to writing organization and citations With this guide at the ready instructors are able to vary their writing assignments without spending extensive in class time introducing students to different styles of political science writing Instructors can also assign longer and more complex writing assignments as the students progress through their studies The Thomson Nelson Political Science Writer s Guide serves the needs of all levels of Political Science students and is an excellent resource that can be referred to later in their careers in Political Science **Writing Across the Chemistry Curriculum** Jeffrey Kovac,Donna W.
