Grammar & Corpora 2009 Marek Konopka, 2011 **Duden, Grammatik der deutschen Gegenwartssprache**

This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction. For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation. To attain these objectives the series will aim for a standard comparable to that of the leading handbooks in other disciplines and to this end will strive for comprehensiveness, theoretical explicitness, reliable documentation of data and findings and up to date methodology. The editors both of the series and of the individual volumes and the individual contributors are committed to this aim. The languages of publication are English, German and French. The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks; however, no inflexible pre-set limits will be imposed on the scope of each volume. The series is open-ended and can thus take account of further developments in the field. This conception coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care means that there is no set time-table for the publication of the whole series. Each volume will be a self-contained work complete in itself. The order in which the handbooks are published does not imply any rank-ordering but is determined by the way in which the series is organized. The editor of the whole series enlists a competent editor for each individual volume. Once the principal editor for a volume has been found, he or she then has a completely free hand in the choice of co-editors and contributors. The editors plan each volume independently of the others, being governed only by general formal principles. The series editor only intervenes where questions of delineation between individual volumes are concerned. It is felt that this modus operandi is best suited to achieving the objectives of the series, namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume.

Grammar Between Norm and Variation Alexandra N. Lenz, 2010. The articles collected in this volume offer the most various access to the discussed questions on norm and variation. In their entirety they reflect the current discussion of the topic. Focusing on the object languages German and English ensures a high level of topical consistency. On the other hand, the four large topic areas: emergence and change of norms and grammatical constructions, relationship of codes of norms and real language usage, competition of standard and non-standard language norms and subsistent norms of minority languages and institutionalised second language varieties cover a large range of relevant issues.

GRAMMATIK/DUDEN V.04, NEUAUFLAGE, 1984-10-19 Wortartenklassifikationen der KMK-Liste und Dudengrammatik. Eine Synopse Jörg Schunk, 2023-04-28 Studienarbeit aus dem Jahr 2023 im Fachbereich Germanistik Linguistik Note 2,3 Technische Universität Darmstadt Sprach und Literaturwissenschaft Veranstaltung Syntax Sprache Deutsch Abstract Diese Hausarbeit wurde als Synopse demzufolge einer vergleichenden Gegenüberstellung in diesem Falle der KMK Liste und Dudengrammatik erstellt Zu diesem Zweck wurde eine Dokumentenanalyse angefertigt die in den folgenden Kapiteln ersichtlich wird Diese Dokumentenanalyse beschäftigt sich insbesondere mit einer Wortartenklassifikation Ein Vergleich bietet sich an dieser Stelle an weil es sich an dieser Stelle um zwei unterschiedliche Institutionen handelt Zum einen wird das Verzeichnis grundlegender grammatischer Fachausdrücke genannt Dieses Verzeichnis hier dargestellt als die Liste der Kultusministerkonferenz KMK Liste welche früher stark kritisiert wurde Als Hauptkritikpunkte gelten der absichtliche Verzicht auf ein Grammatikmodell sowie die unterschiedlichen Definitionskriterien innerhalb der KMK Liste Diese Auffassung wurde damit begründet dass keinem Grammatikmodell ein Vorzug gewährt werden sollte Diese Entscheidung hatte allerdings zur Folge dass in der Schule genauer gesagt im Deutschunterricht auf jegliche grammatischen Erkenntnisse verzichtet werden muss Zwar haben die SchülerInnen nun bundesweit eine einheitliche Terminologie die allerdings nicht gewährleistet dass die verwendeten Termini überall in der Bundesrepublik begrifflich gleich sind Zum anderen die Dudengrammatik diese ist seit 1935 das Standardwerk zur deutschen Grammatik Die Dudengrammatik ist im Gegensatz zur KMK Liste ein Grammatikmodell Dieses Jahr wurde die 10. Auflage der Dudengrammatik neu verfasst und in dieser Hausarbeit verwendet wurde Die Anwendungsbereiche einer umfassenden Grammatik sind laut Duden vielfältiger geworden Die Dudengrammatik dient als multiperspektivische Auskunft und Nutzergrammatik mit der Zielsetzung damit zur Vertiefung und Erweiterung des Wissens beizutragen Deshalb beschreibt der neue Grammatikduden das systematische Sprachsystem dessen Struktur und die Bedeutung und Verwendung von sprachlichen Einheiten **Grammatiktheorie und Empirie in der germanistischen Linguistik** Angelika Wöllstein, Peter Gallmann, Mechthild Habermann, Manfred Krifka, 2018-07-23 Mit Fragestellungen und kritischen Diskussionen zu Paradigmen Methoden und Zielen stellt der Sammelband eine Positionsbestimmung zur Grammatiktheorie und Empirie in der germanistischen Linguistik dar Die Beiträge umfassen ein breites Spektrum an Themen zwischen deskriptiver Vollständigkeit

Duden Renate Baudusch, 2000 **Exclamative Sentences - a Basic Sentence Type?** Phyllis Wiechert, 2007-08 Seminar paper from the year 2004 in the subject English Language and Literature Studies Linguistics grade 1.7 Free University of Berlin Institut für Englisch Philologie course Understanding English German Contrasts language English abstract The grammatical concepts for the basic sentence types in German and English are established and confirmed in various grammars Each grammar differentiates between declarative interrogative and imperative sentence But when it comes to the classification of exclamative sentences different and partly excluding concepts can be found Some grammarians regard exclamative sentences as an individual sentence type whereas others define exclamative sentences as a special case of one of the other three basic sentence types The purpose of this paper is to try to find an answer to the controversial question whether exclamative sentences are a basic sentence type For this reason an analysis of German and English grammars and research papers dealing with the classification of exclamative sentences is necessary The analysis will focus on the following questions and problems Is there a sentence type exclamative sentence which can be unambiguously characterised and identified If so can exclamative sentences be regarded as a basic sentence type alongside declarative interrogative and imperative sentences If not what are exclamative sentences Do they belong to the basic sentence types or are they a minor sentence type The analysis will proceed in the following fashion First I will analyse German grammars and papers regarding exclamative sentences including their use and meaning Second I will continue the analysis with English grammars and papers A summary after each part will restate the results of the analysis Third in a concluding section the results will be restated shortly The gained information from the other sections will be used to answer the initial question whether there is an individual excla

How Epistemic Modifiers Emerge Jakob Maché, 2019-03-04 This book delivers the first comprehensive study on German modal verbs which summarises and critically reflects the discussion of the last 500 years checks these findings against large corpus data and is accessible to the English reader It is shown that non epistemic modal verbs modify events whereas their epistemic counterparts modify the proposition and how the latter developed from the former

Semantically vacuous elements in German : Adjectival inflections and the article ein Dorian Roehrs, 2025-10-30 This book investigates adjectival inflections and the article ein in many different contexts in German including in various non canonical contexts It pursues two goals On the one hand it strives to provide a more comprehensive description and account of adjectival inflections and the article ein This includes an examination of the interaction of these two elements On the other hand it seeks to identify similarities between these different types of elements to address certain theoretical questions It is argued that adjectival inflections are not a reflex of in definiteness non restrictiveness of the interpretation of adjectives or referentiality ein is argued not to be a reflex of indefiniteness emotiveness or singular number countability Furthermore it is demonstrated that these two elements indicate

abstract structural differences adjectival inflections in the higher portion of the noun phrase ein in the lower part of the noun phrase In addition both types of elements make certain abstract elements visible adjectival inflections make features for case number and gender visible ein supports overt operators or flags the presence of covert ones Overall it is concluded that these two types of elements have neither semantics of their own nor do they make such features visible they are semantically vacuous

Formal Approaches to Multilingual Phonology Jennifer Cabrelli,Baris Kabak ,John Archibald,2025-09-22 Over the past 30 years formal approaches to second and additional language acquisition SLA have made great advances in understanding the nature of the multilingual mind However it is undeniable that most of the research into the speech of learners and multilinguals has focused on more phonetic rather than phonological approaches These phonetic approaches among other contributions enrich our understanding of surface variation in the production and perception of various sound phenomena Complementing these phonetic approaches phonological approaches seek to describe mental representations that connect sound and meaning and may tell us about both universal and language specific patterns in non native development and use Studies undertaking these objectives however are comparatively scarce in the literature particularly those whose empirical examination of SLA seek to further develop complex linguistic models of the mental representation of phonology and to inform phonological theory
