K. Alexander, 2019-11-27 With facts and information insightful commentary and even a few flights of fantasy The Story Behind the Bible trilogy weaves a magnetic journey through the ancient texts of the Bible for believers and non believers alike It s a journey that can draw readers into a universe that is larger and more incredible than they ever thought possible A highly comprehensive overview of the entire Bible the trilogy also proves that the prophets of scripture made impossible and miraculous predictions and prophecies concerning future events including our current era and virtually proves that God s hand steers the broad stream of world history Now over two thousand years hence much of scripture has been misinterpreted misapplied or simply lost to traditions and folklore The books address those issues with commentary and doctrine and through the elegant story and amazing people of the New Testament bring the biblical story to a triumphant end **The Story Behind The Bible** J K Alexander, 2019-08-16 With facts and information insightful commentary and even a few flights of fantasy The Story Behind the Bible weaves a magnetic journey through the most ancient texts of the Bible for believers and non believers alike It s a journey that could draw you into a universe that is larger and more incredible than you ever thought possible Rather than creating a typical Bible study J K Alexander shares his unique perspectives on how and why events in the Bible occurred from Genesis to Deuteronomy Whether you re a longtime Christian or a skeptic you re sure to glean thought provoking information from this intriguing read [The Gods Were Astronauts](#) Erich von Däniken, 2023-07-03 Bestselling author Erich von D niken explores the evidence of ancient visitors treated as gods in religious scripture and mythology His findings shake the foundations of both science and faith Why do nearly all the world s major religions share similar myths and legends Whether it s the Old Testament ancient legends or the creation myths of New Zealand s natives you come across similar stories everywhere Erich von D niken author of the international bestseller Chariots of the Gods believes he knows the answer and it is as wondrous and awe inspiring as it is controversial The winged angels populating the Bible the Koran and other religious texts from cultures the world over were in reality extraterrestrials who visited the Earth in ages long past Who were the gods of ancient

lore How can the contradictions in the Bible be explained Why are the pagodas of Myanmar formerly Burma so amazingly similar to space capable rockets Erich von D niken provides convincing new and surprising interpretations and answers that fundamentally contradict both the teachings of religion and current science His astonishing conclusion The gods were not metaphysical beings that humans created in their imagination but extraterrestrial intelligences that have left their traces all over the Earth He offers persuasive evidence that actual living beings inspired the legends that became the basis for many of our religious traditions
