## **A Chapter 4 Endnote:**

**The Philosophy of Hegel as a Doctrine of the Concreteness of God and Humanity: Volume One** Ivan Aleksandrovich Il'in, 2010-08-30 This landmark two volume translation from Russian of *The Philosophy of Hegel as a Doctrine of the Concreteness of God and Humanity* marks the first appearance in English of any of the works of Russian philosopher Ivan Aleksandrovich Il'in. Originally published in 1918 on the eve of the Russian civil war, Il'in's commentary on Hegel marked both an apogee of Russian Silver Age philosophy and a significant manifestation of the resurgence of interest in Hegel that began in the early twentieth century. A. F. Losev accurately observed in the same year it appeared: "Neither the study of Hegel nor the study of contemporary Russian philosophical thought is any longer thinkable without this book of Il'in." Some Hegel scholars may know this work through the abridged translation into German that Il'in produced himself in 1946. However, that edition omitted most of the original volume. Two noted Hegel scholars, Philip T. Grier's edition with an introduction setting Il'in's work in its proper historical, cultural, and philosophical contexts and annotation throughout, represents the first opportunity for non-Russian speaking readers to acquaint themselves with the full scope of Il'in's still provocative interpretation of Hegel. Volume 1 is *The Doctrine of God*, Volume 2 is *The Doctrine of Humanity*. *The Protestant Ethic and the Spirit of Capitalism* Max Weber, 2011 For more than 100 years, Max Weber's *The Protestant Ethic and the Spirit of Capitalism* has set the parameters for the debate over the origins of modern capitalism. In this volume, Stephen Kalberg revises his internationally acclaimed translation using shorter sentences and more lucid language in order to make the work even more accessible to students and other readers. Capturing the essence of Weber's style as well as the subtlety of his descriptions and causal arguments, this engaging volume also includes extensive introductions by the editor, a chronology of Weber's life, a glossary, and numerous clarifying endnotes.

**Tobacco plain packaging** World Health Organization, 2022-06-30 This publication by the World Health Organization provides a comprehensive update on the global status of tobacco plain packaging as of 2021. It outlines the progress made by various countries in implementing plain packaging measures designed to reduce the appeal of tobacco products and promote public health. The book discusses the legislative elements of plain packaging, compares laws across different regions, and provides insights into legal challenges faced. Key objectives include eliminating tobacco packaging as a form of advertising and enhancing the visibility of health warnings. Targeted at policymakers and public health professionals, this work supports the WHO Framework Convention on Tobacco Control and advocates for plain packaging as part of a broader tobacco control strategy.

**Maggie Laubser - A Window on Always Light** Muller Ballot, 2016-03-01 The artist Maggie Laubser no longer needs any introduction. In this publication, focussing on her 149 paintings in the art collection of Stellenbosch University, art connoisseurs as well as art lovers are afforded the opportunity to closely follow the evolution of her truly unique style and to actually share in the life of the person behind the canvas. Muller Ballot tells this story in an exceptional way by unfolding and interpreting her oeuvre.

**The Body in Late Medieval and Early Modern Culture** Darryll Grantley, Nina Taunton, 2000 Taking as its chronological starting point the female body of late medieval devotional literature the volume moves on to a consideration of the representation of gendered bodies in later literature It then proceeds to examine sixteenth century occupational orderings of the male body in education the civil service and the army and involves explorations into a variety of rituals for the purification ordering and disciplining of the flesh It includes enquiries into the miraculous royal body demon bodies the virtual body of satire and ends the late seventeenth century with dramatic representations of the diseased body and the grotesque bodies of travellers tales as signifiers of racial difference It pushes forward post modern notions of the body as a site for competing discourses It provides new dimensions to fantasies rituals and regulations in narratives fictions of the body as identifications of forms of knowledge unique to the early modern period Each of the essays sheds new light on how these late medieval and early modern narratives function to produce specialized and discrete languages of the body that cannot be understood simply in terms say of religion philosophy or physiology but produce their own discrete forms of knowledge Thus the essays materially contribute to an understanding of the relationship between the body and spatial knowledge by giving new bearings on epistemologies built upon pre modern perceptions about bodily spaces and boundaries They address these issues by analysing forms of knowledge constructed through regulations of the body fantasies about extensions to the body and creations of bodily psychic intellectual and spiritual space The essays pose important questions about how these epistemologies offer different investments of knowledge into structures of power What constitutes these knowledges What are the politics of corporeal spaces In what forms of knowledge about spatial and bodily perceptions and practices are these early modern narratives embedded What ideologies shape and contain them The collection deliberately incorporates a period range which encompasses considerable cultural and ideological shifts that impact upon perceptions of the body The choice of essays in the volume recognizes both continuities and discontinuities between perceptions of the body in the medieval and early modern periods
