## **A Chronicle Of Grand Bonny:**

**A Chronicle of Grand Bonny** Ebiegberi Joe Alagoa, Adadonye Fombo, 1972      **Christian Missionary Enterprise in the Niger Delta, 1864-1918** G.O.M. Tasié, 2023-07-03      History and Citizenship Okon Edet Uya, Ikechukwu R. Amadi, Ini Akpan Udoka, Yakubu A. Ochefu, 2005      **Britain and International Law in West Africa** Inge Van Hulle, 2020-10-22 Africa often remains neglected in studies that discuss the historical relationship between international law and imperialism during the nineteenth century. When it does feature, focus tends to be on the Scramble for Africa and the treaties concluded between European powers and African polities in which sovereignty and territory were ceded. Drawing on a wide range of archival material, Inge Van Hulle brings a fresh new perspective to this traditional narrative. She reviews the use and creation of legal instruments that expanded or delineated the boundaries between British jurisdiction and African communities in West Africa and uncovers the practicality and flexibility with which international legal discourse was employed in imperial contexts. This legal experimentation went beyond treaties of cession and also encompassed commercial treaties, the abolition of the slave trade, extraterritoriality, and the use of force. The book argues that by the 1880s the legal techniques that were fashioned in the language of international law in West Africa had largely developed their own substantive characteristics. Legal ordering was not done in reference to adjudication before Western courts or the writings of Western lawyers but in reference to what was deemed politically expedient and practically feasible by imperial agents for the preservation of social peace, commercial interaction, and humanitarian agendas.      An Almanac of Contemporary Characterisation of Judicial Restatements -Annotated with Treaties, Statutes, Rules and Commentaries 'lai Oshitokunbo Oshisanya, 2026-01-01 JuriScience is an approach through systematic study of the structure of legal phenomena in the law of nature from the perspective of philosophy of science to inform by exploration of formulas, relations, or order of phenomena as held in the world under stipulated set of conditions, either universally or in a stated proportion of formalised categories in this jurisprudential version.      **Traders in Men** Nicholas Radburn, 2023-07-25 A sweeping new history that reveals how British African and American merchants developed the transatlantic slave trade. This is a landmark study given its clear status as easily the best researched and most comprehensive book on the British slave trade to date. David Eltis, coauthor of *Atlas of the Transatlantic Slave Trade*. A masterful account of one of the most brutal moments in the history of capitalist modernity, Radburn brilliantly details all aspects of the process of commodification of human beings in the Liverpool slave trade, vividly depicting the long journeys endured by Africans in Africa across the Atlantic and in the Americas. Leonardo Marques, Universidade Federal Fluminense. During the eighteenth century, Britain's slave trade exploded in size. Formerly a small and geographically constricted business, the trade had by the eve of the American Revolution grown into a transatlantic system through which fifty thousand men, women, and children were enslaved every year. In this wide-ranging history, Nicholas Radburn explains how thousands of merchants collectively transformed the slave trade by devising highly efficient but violent new business methods. African

brokers developed commercial infrastructure that facilitated the enslavement and sale of millions of people Britons invented shipping methods that quelled enslaved people s constant resistance on the Middle Passage And American slave traders formulated brutal techniques through which shiploads of people could be quickly sold to colonial buyers Truly Atlantic wide in its vision this study shows how the slave trade dragged millions of people into its terrible vortex and became one of the most important phenomena in world history
